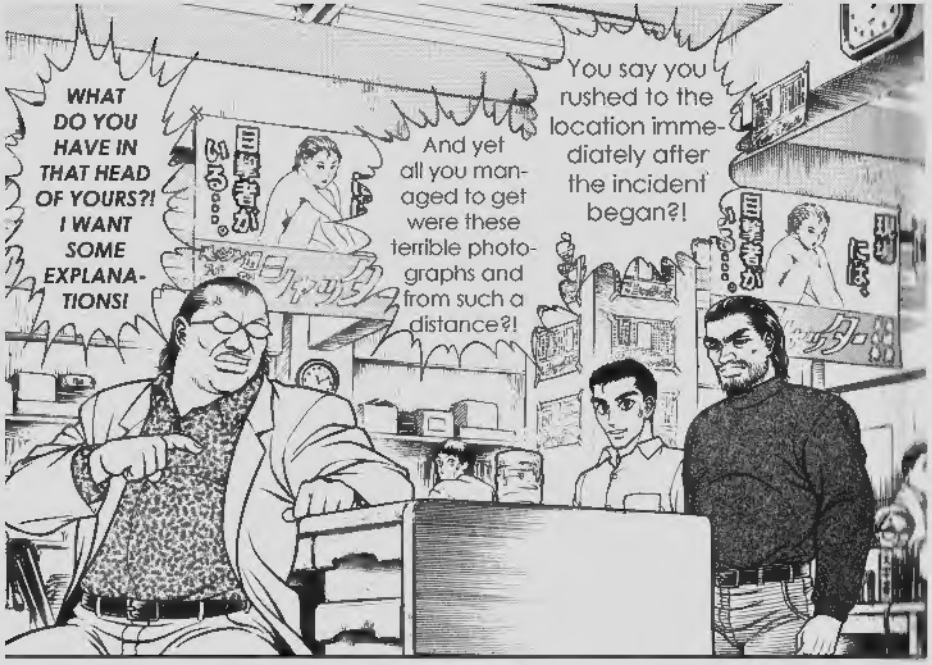
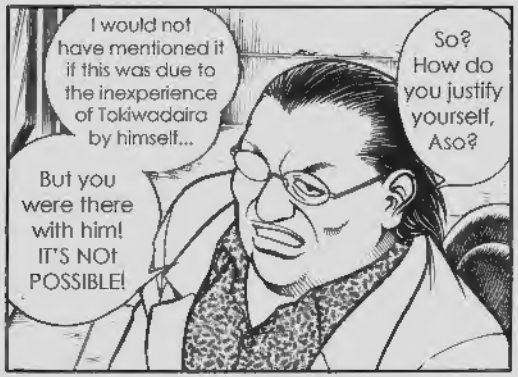
YOU ARE SAFE AND UNHARMED!
SHO!
...SHO?!
...SHO...
.....
SHO!

SHO!



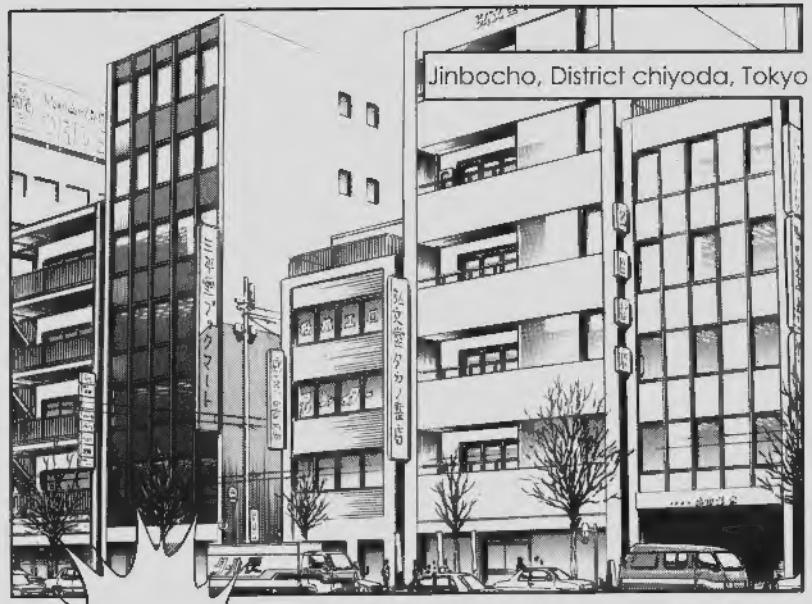
WHAT DO YOU HAVE IN THAT HEAD OF YOURS?! I WANT SOME EXPLANATIONS!
And yet all you managed to get were these terrible photographs and from such a distance?!
You say you rushed to the location immediately after the incident began?!

PIPE DOWN SNOTTY!
I DON'T REMEMBER ASKING YOU TO SPEAK!



I would not have mentioned it if this was due to the inexperience of Tokiwadaira by himself...
So? How do you justify yourself, Aso?
But you were there with him! IT'S NOt POSSIBLE!

... The place was a total disaster area...
Uh sir... I must... I should say that ...
... And we were unable to get any closer...



Jinbocho, District chiyoda, Tokyo

YOU ARE SUCH AN IDIOT!
風雲書房

...
I am not always so perfect...
I think you are overestimating me, boss...
SENPAI!
We... We cannot show these to the public...
... If they see the photograph in which that terrible thing is seen, then what?

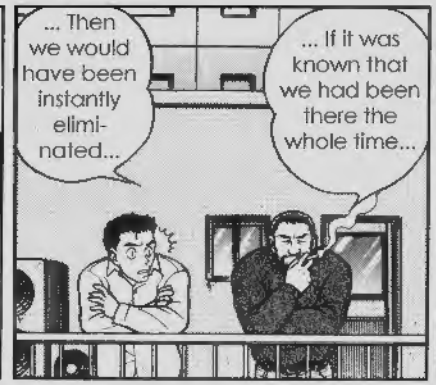
... But the guards of the control centre were far stricter then I had thought they would be...
It displeases me...
.....
... It seems to me that you are shamelessly lying...
.....
GO AND WRITE THE HEADLINES IMMEDIATELY!
GET OUT OF MY SIGHT! AND YOU TOO!
... What is it you are hiding?
Aso...

Washington DC, United States of America

Uhm...
There is a communication from lord Amniculus from the Japan branch...

Doctor Balcus!

Ah ah ah... I knew it...



... Then we would have been instantly elimi-nated...
... If it was known that we had been there the whole time...

It is not so simple...

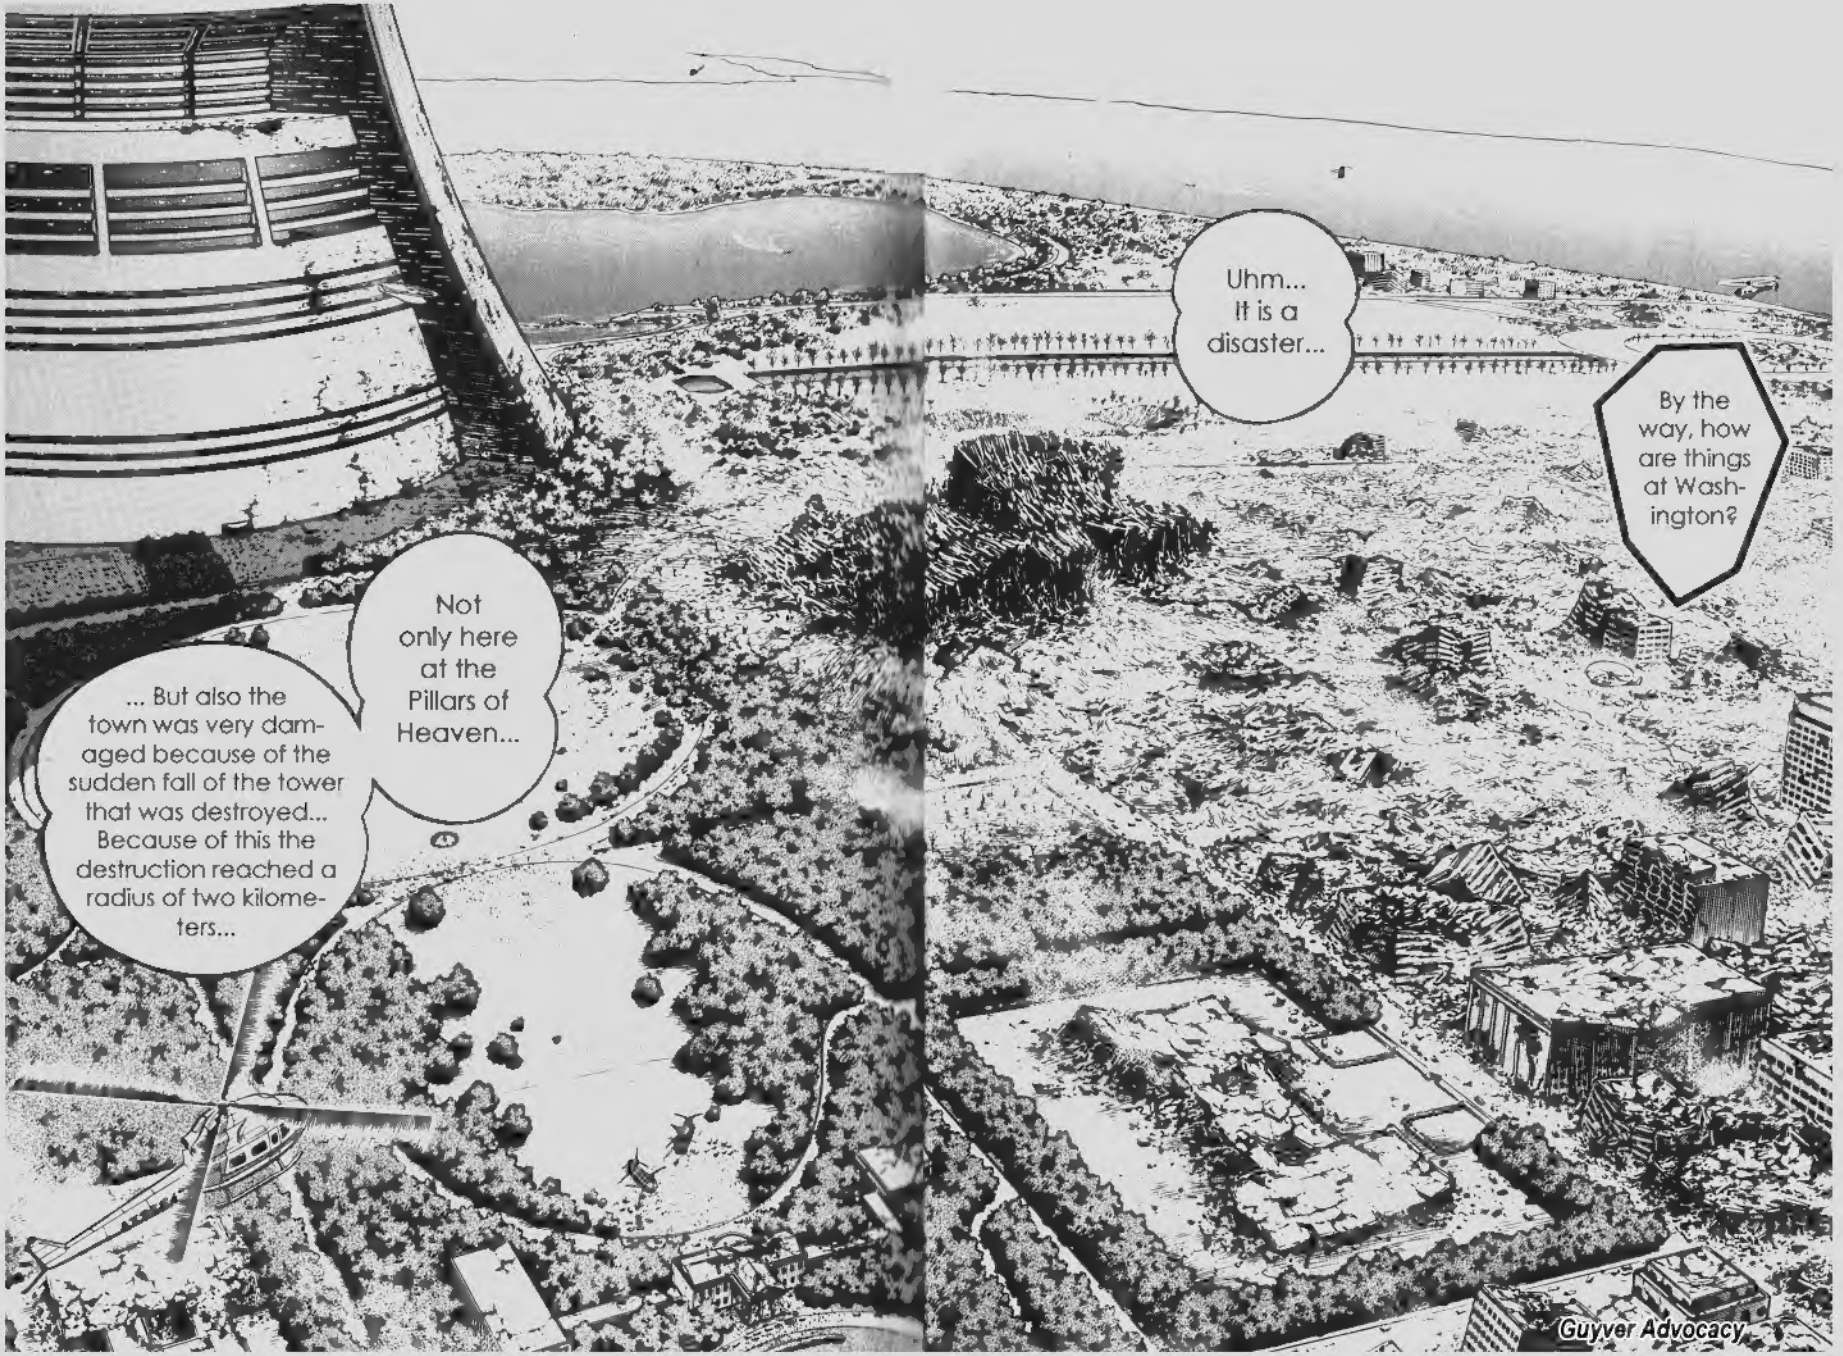
... I imagine, the twelve lords are not so united between themselves...
How-ever...

Now I have a strong doubt that this Guyver is the invading warrior from another planet...

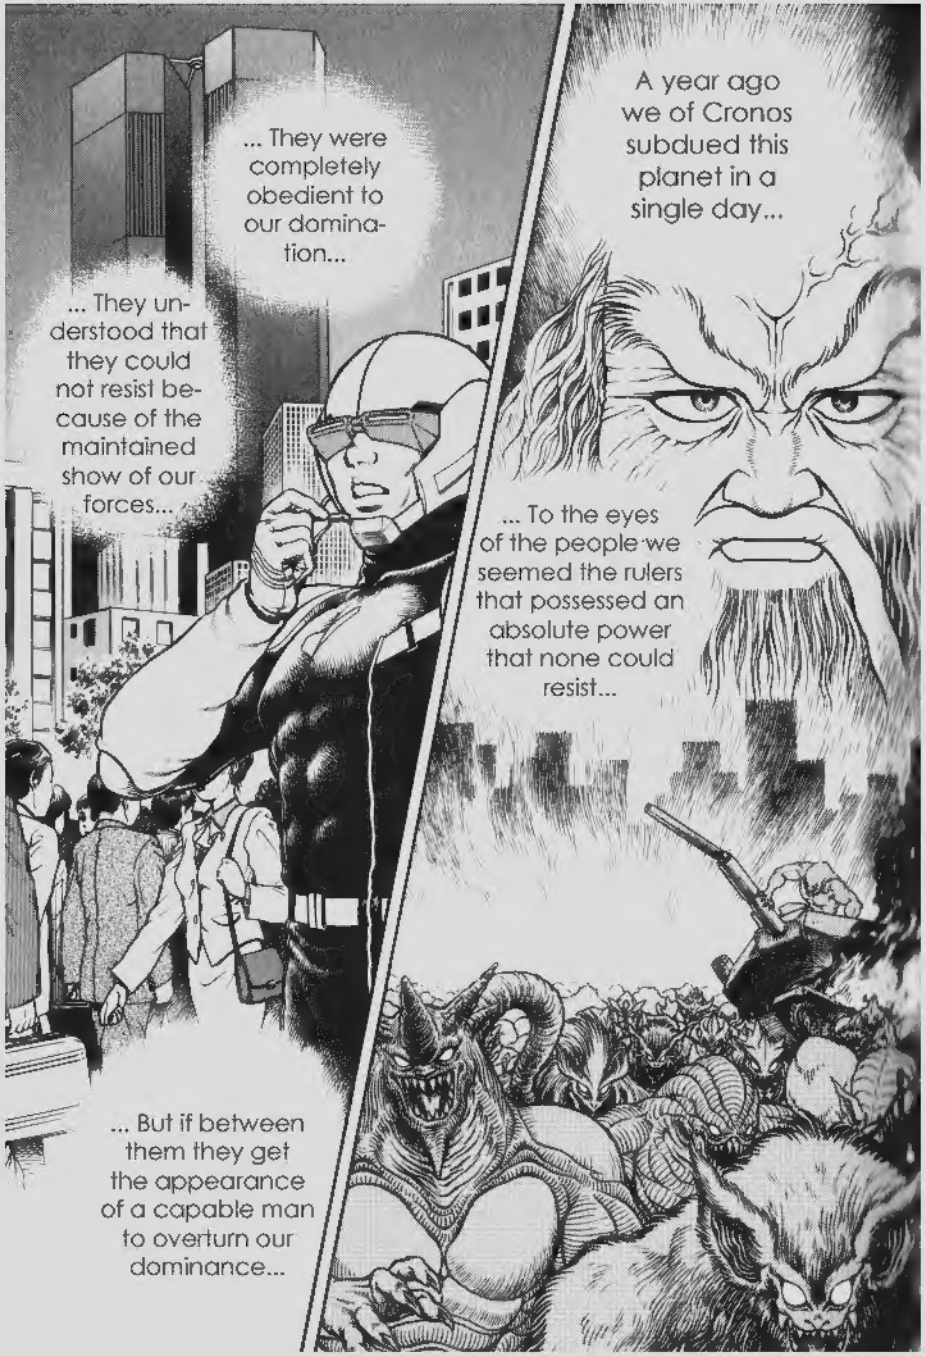
Otherwise how could those zoa-lords have killed an-other zoa-lord?

... But I feel that I should not have entrusted the Japan branch to Purgstal alone, given that it placed him in line of our main threat from the Guyver...
Now it is too late for regrets...
.....
Don't mention it
...

Guyver Advocacy



Uhm... It is a disaster...
By the way, how are things at Washington?
Not only here at the Pillars of Heaven...
... But also the town was very damaged because of the sudden fall of the tower that was destroyed... Because of this the destruction reached a radius of two kilometers...
Guyver Advocacy



A year ago we of Cronos subdued this planet in a single day...
... To the eyes of the people we seemed the rulers that possessed an absolute power that none could resist...
... They were completely obedient to our domination...
... They understood that they could not resist because of the maintained show of our forces...
... But if between them they get the appearance of a capable man to overturn our dominance...

With an action of this type ...
What?
... The organization of resistance will attract a lot of negative attention from the public...
... But... I can't understand it...
My god ...
...What is the true intention of that man, Agito Makishima?
But it makes me wonder ...
... He still has an express need to prove his force...
I believe that... Even if he had attracted such dislike from people...
...
!?

!!
... Because of this he destroyed the Pillars of Heaven instead of the central seat, because it is the symbol of the domination of Cronos...
Exactly ...
Then the population would be disillusioned and begin to show doubts towards whether we really hold the dominant power!
... IN ORDER TO SHOW HIS POWER ALL OVER THE WORLD...
Guyver Advocacy

Cloud Gate,
control center of the Japan
branch of Cronos

Ho
However
.....

I do not
believe that
they realy think
'I can support
their organiza-
tion
Even if those of
Zeus Thunderbolt
want to make such
a show of their
combative force in
this manner

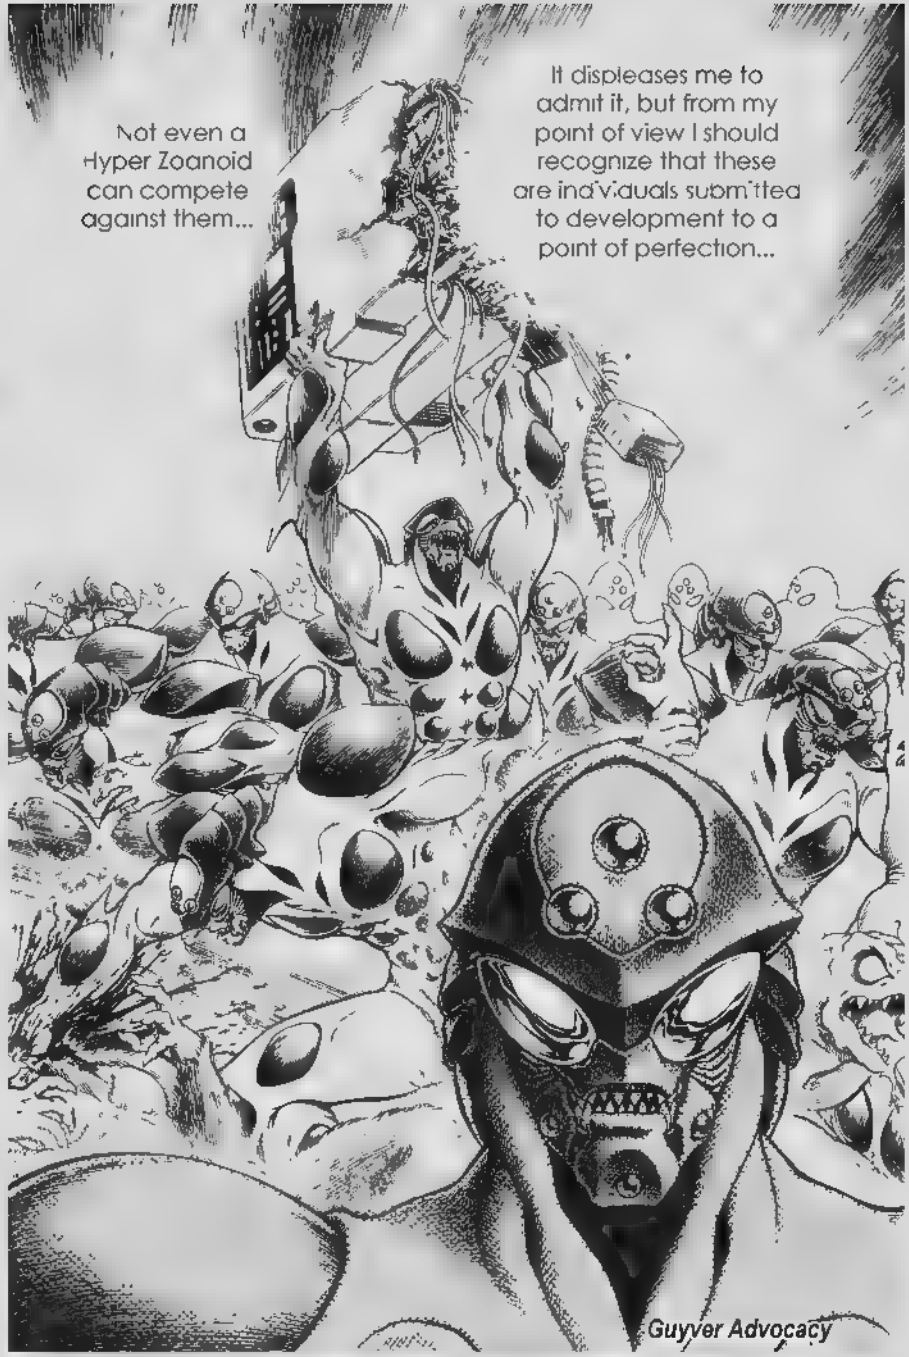
Not
for now,
at least
Not even
Agito has con-
crete hopes in
this sense .

You
are talking
about those
Libertus?
So-
diers?

But how-
ever there is
something
that worries
me
I have
heard
mention of
soldiers that
were with
him

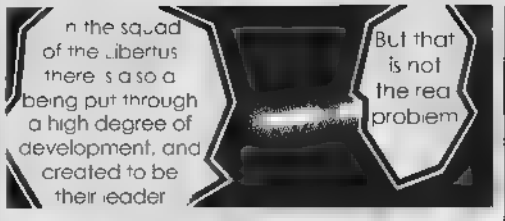
YES.

That is correct..
NOT EVEN OUR HYPER ZOANOIDS?!
But the problem is not their force.
. Those Libertus ..
And I am unable to imagine the other powers they may possess that we are yet to see
.. We cannot subdue their actions.
.. They are completely immune to the telepathic command of us Zoalords.

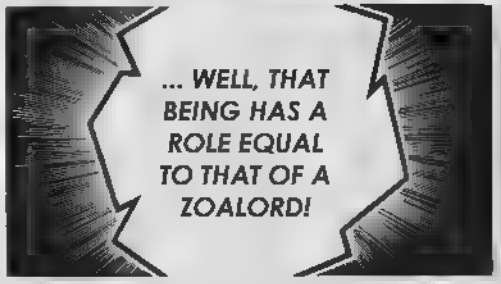


Not even a Hyper Zoanoid can compete against them...
It displeases me to admit it, but from my point of view I should recognize that these are individuals submitted to development to a point of perfection...
Guyver Advocacy

. Because of her presence .. And on this I have no doubt
But my mental waves did not have any effect on the Libertus .
believe that she has an ability that somehow reacts to their brainwaves like we do with the zoanoid

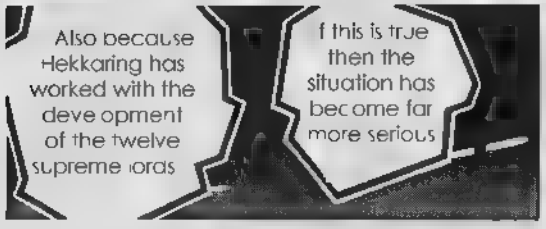


n the squad of the Libertus there s also a being put through a high degree of development, and created to be their leader
But that is not the real problem

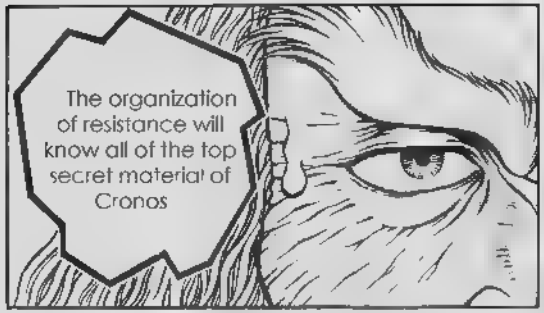


Guyver Advocacy

He has been considered almost equal to Doctor Balcus for many of years... And HE is also the number two of the development center that has taken care of innumerable Processing procedures...
DOCTOR HEKKARING?!



Also because Hekkaring has worked with the development of the twelve supreme lords
If this is true then the situation has become far more serious



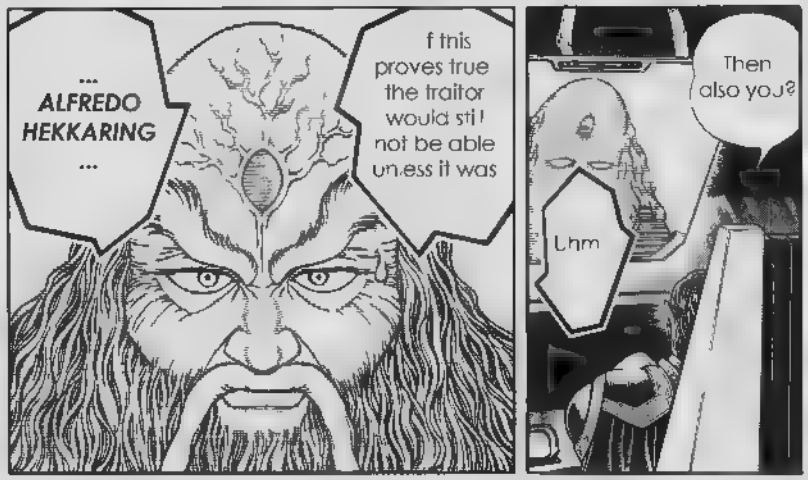
The organization of resistance will know all of the top secret material of Cronos

OH, IT CAN'T BE!
!!

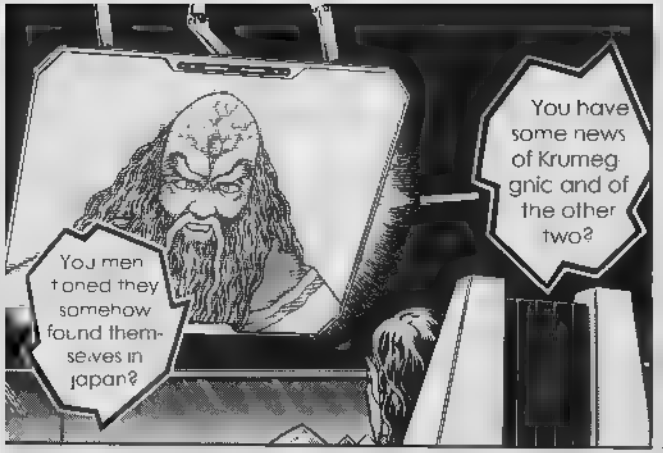
He disappeared after the attack of Gigantic Dark on the central seat in Arizona
Likely he was rescued from the destruction by Gigantic Dark...

There's perhaps some of our engineers that have passed to the enemy?
But then
But how could a simple organization like the resistance movement have a such avanced technology?
I cannot believe it
A feminine body submitted to development and provided with abilities equal to that of a zoanoid

You too have arrived at this conclusion Shin?
You too



... ALFREDO HEKKARING ...
If this proves true the traitor would still not be able unless it was
Then also you?
Uhm



You have some news of Krumeg gnic and of the other two?
You men toned they somehow found themselves in Japan?

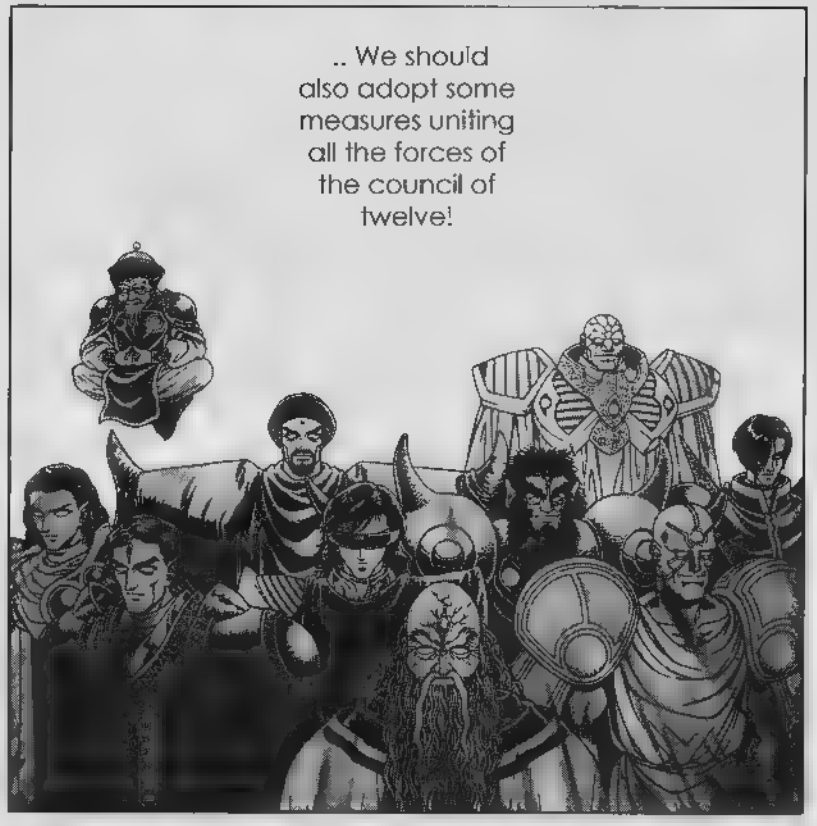
By the way

.....

When arrived at Akarigaoka, those three were already together at the scene .
Yes I also have something rather worrying on this, Doctor Balcus

WHAT?!

. We should take measures before the resistance becomes more able...
At any rate, we find ourselves in a critical situation .



.. We should also adopt some measures uniting all the forces of the council of twelve!

THEY WHERE THERE WHEN I ARRIVED... AROUND THE CORPSE OF PURGSTAL...
Guyver Advocacy

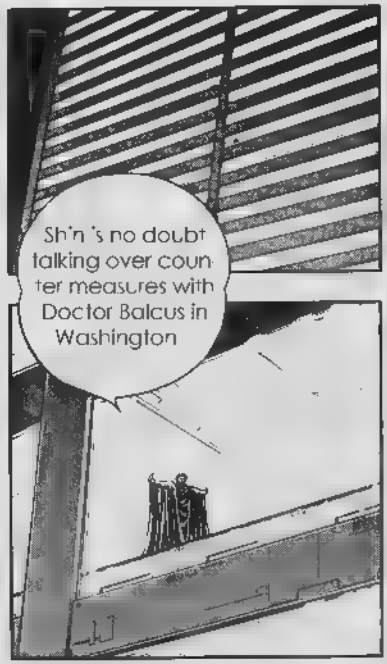
We did not expect that Shin would also turn up
f he had remained here would we have had any diffi cully in carrying out our little projec t?

There fore...
. We begin to get ready our se ves for the next plan..

However t is not possib e even for us to go back on our act ons
f Sh n becomes an obstacle t would suffice to react as we did w th Purg stal. no?

He he he ne .

He ne.



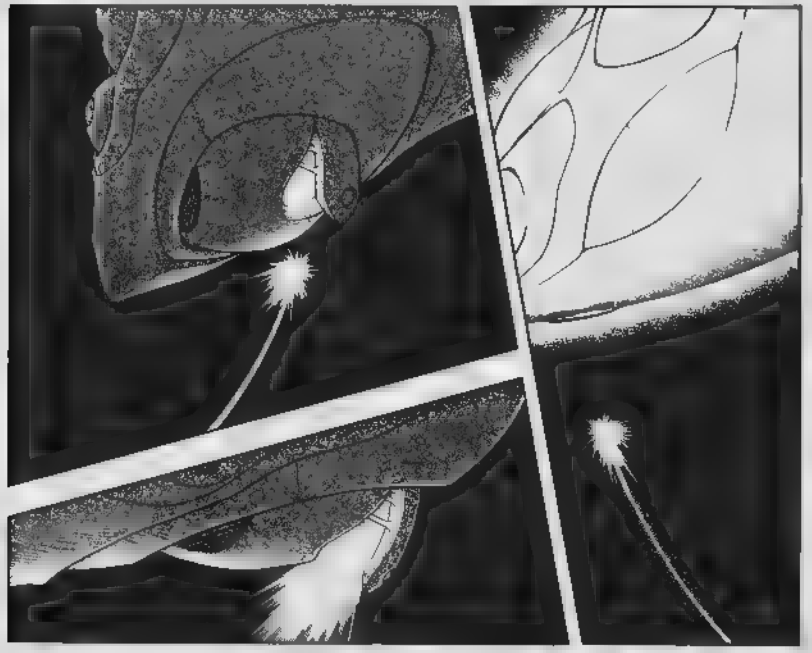
Sh'n 's no doubt talking over coun ter measures with Doctor Balcus in Washington

Chapter 101
THE STIRRING OF THE ARK

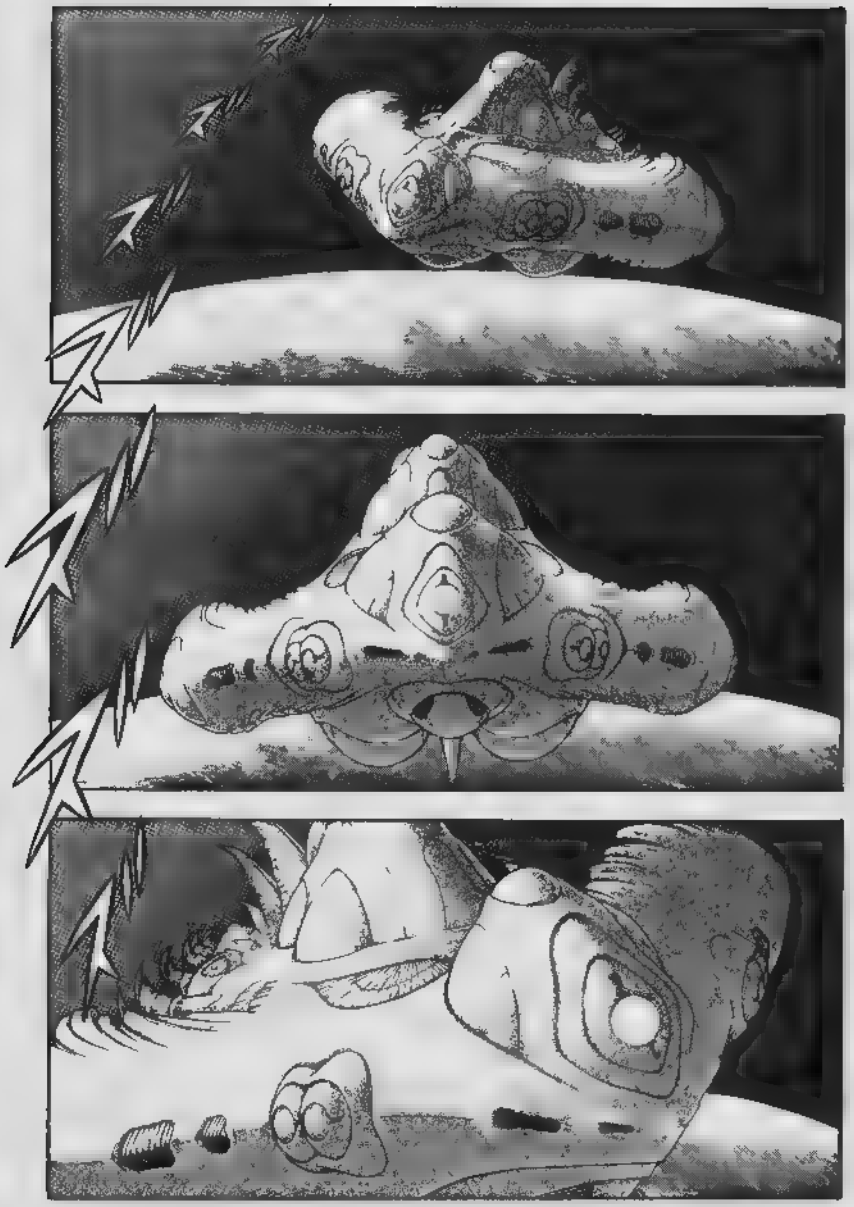
..
The bait to attract the Guyver
Yes, we do not need any specific trick.

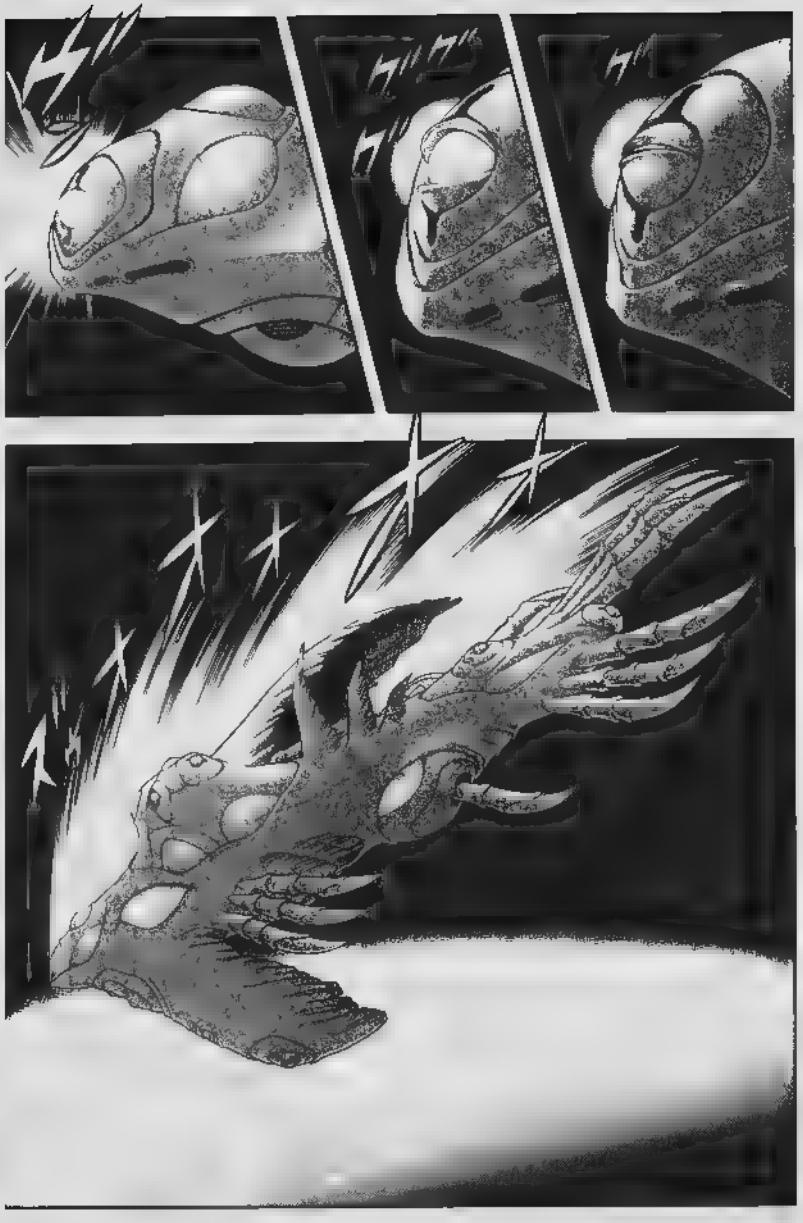
... IS ALREADY HERE...

Ark, The great biological ship for galact c warfare is
found 'n stationary orb't
Guyver Advocacy



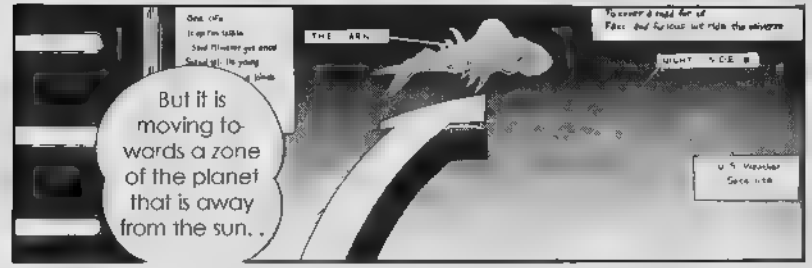
Cuyver Advocacy





The Ark is moving?

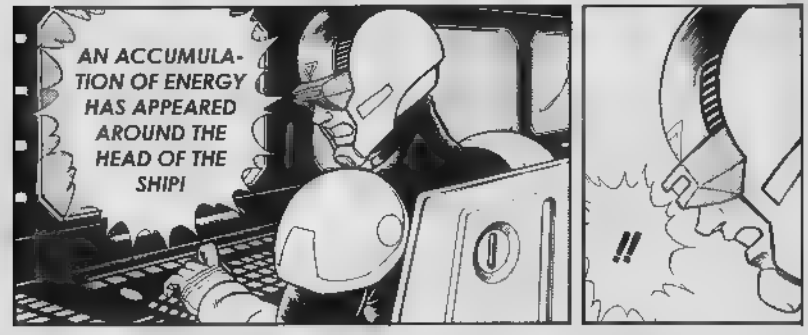
But there 's no one currently on board, true?
No, That is true .



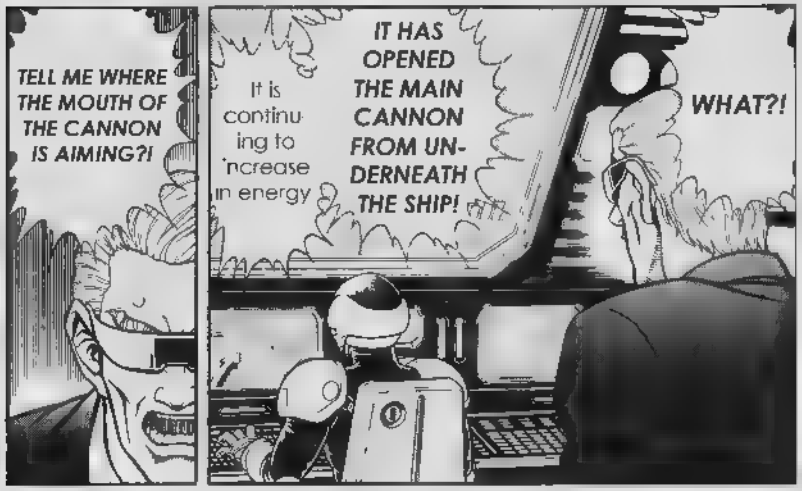
But it is moving towards a zone of the planet that is away from the sun. .

Arizona United States of America
Central seat of Cronos
Cuyver Advocacy

Is there some other anomaly?
Yes, however we will report it to Doctor Balcus in Washington...

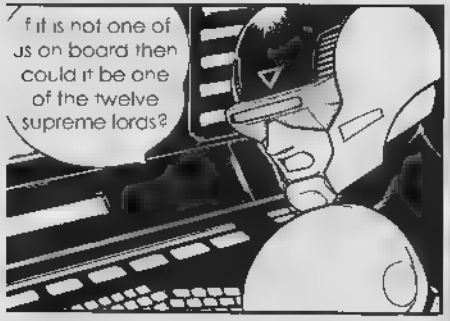


AN ACCUMULATION OF ENERGY HAS APPEARED AROUND THE HEAD OF THE SHIP!
!!



TELL ME WHERE THE MOUTH OF THE CANNON IS AIMING?!
It is continuing to increase in energy
IT HAS OPENED THE MAIN CANNON FROM UNDERNEATH THE SHIP!
WHAT?!

This is impossible..
.....

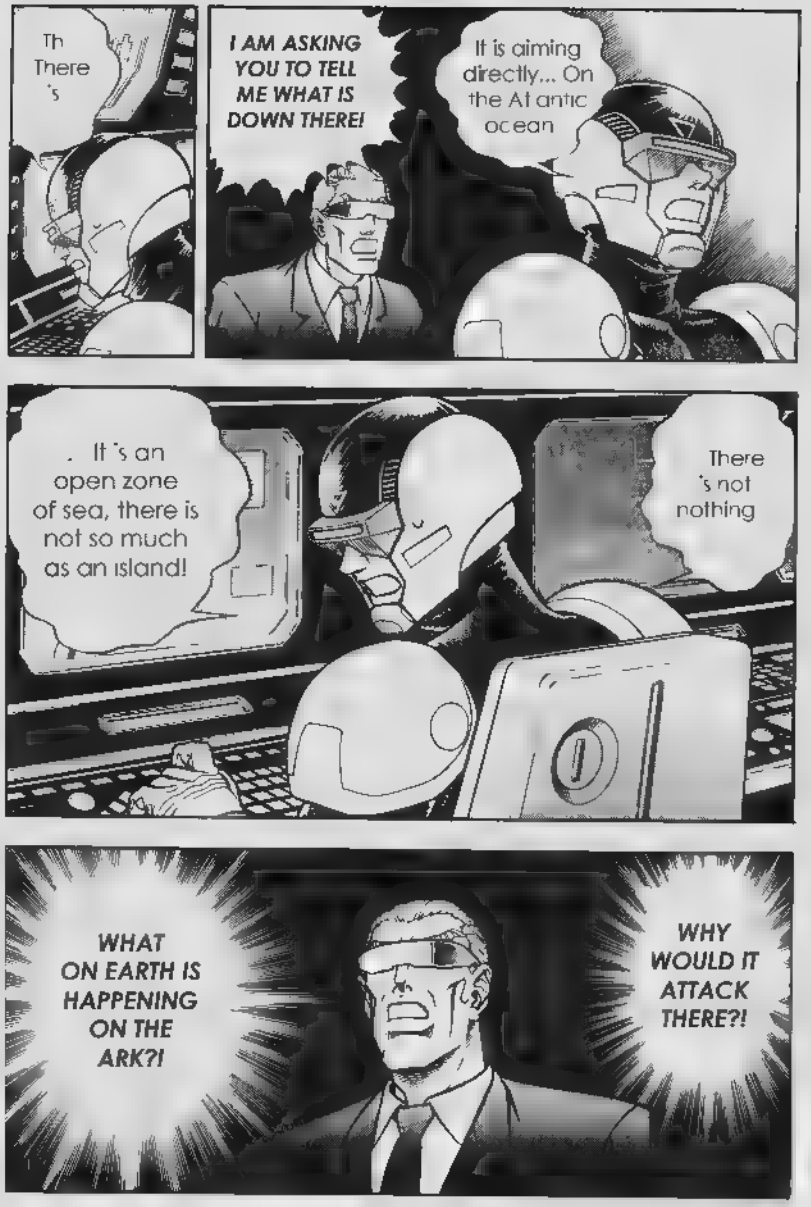


If it is not one of us on board then could it be one of the twelve supreme lords?

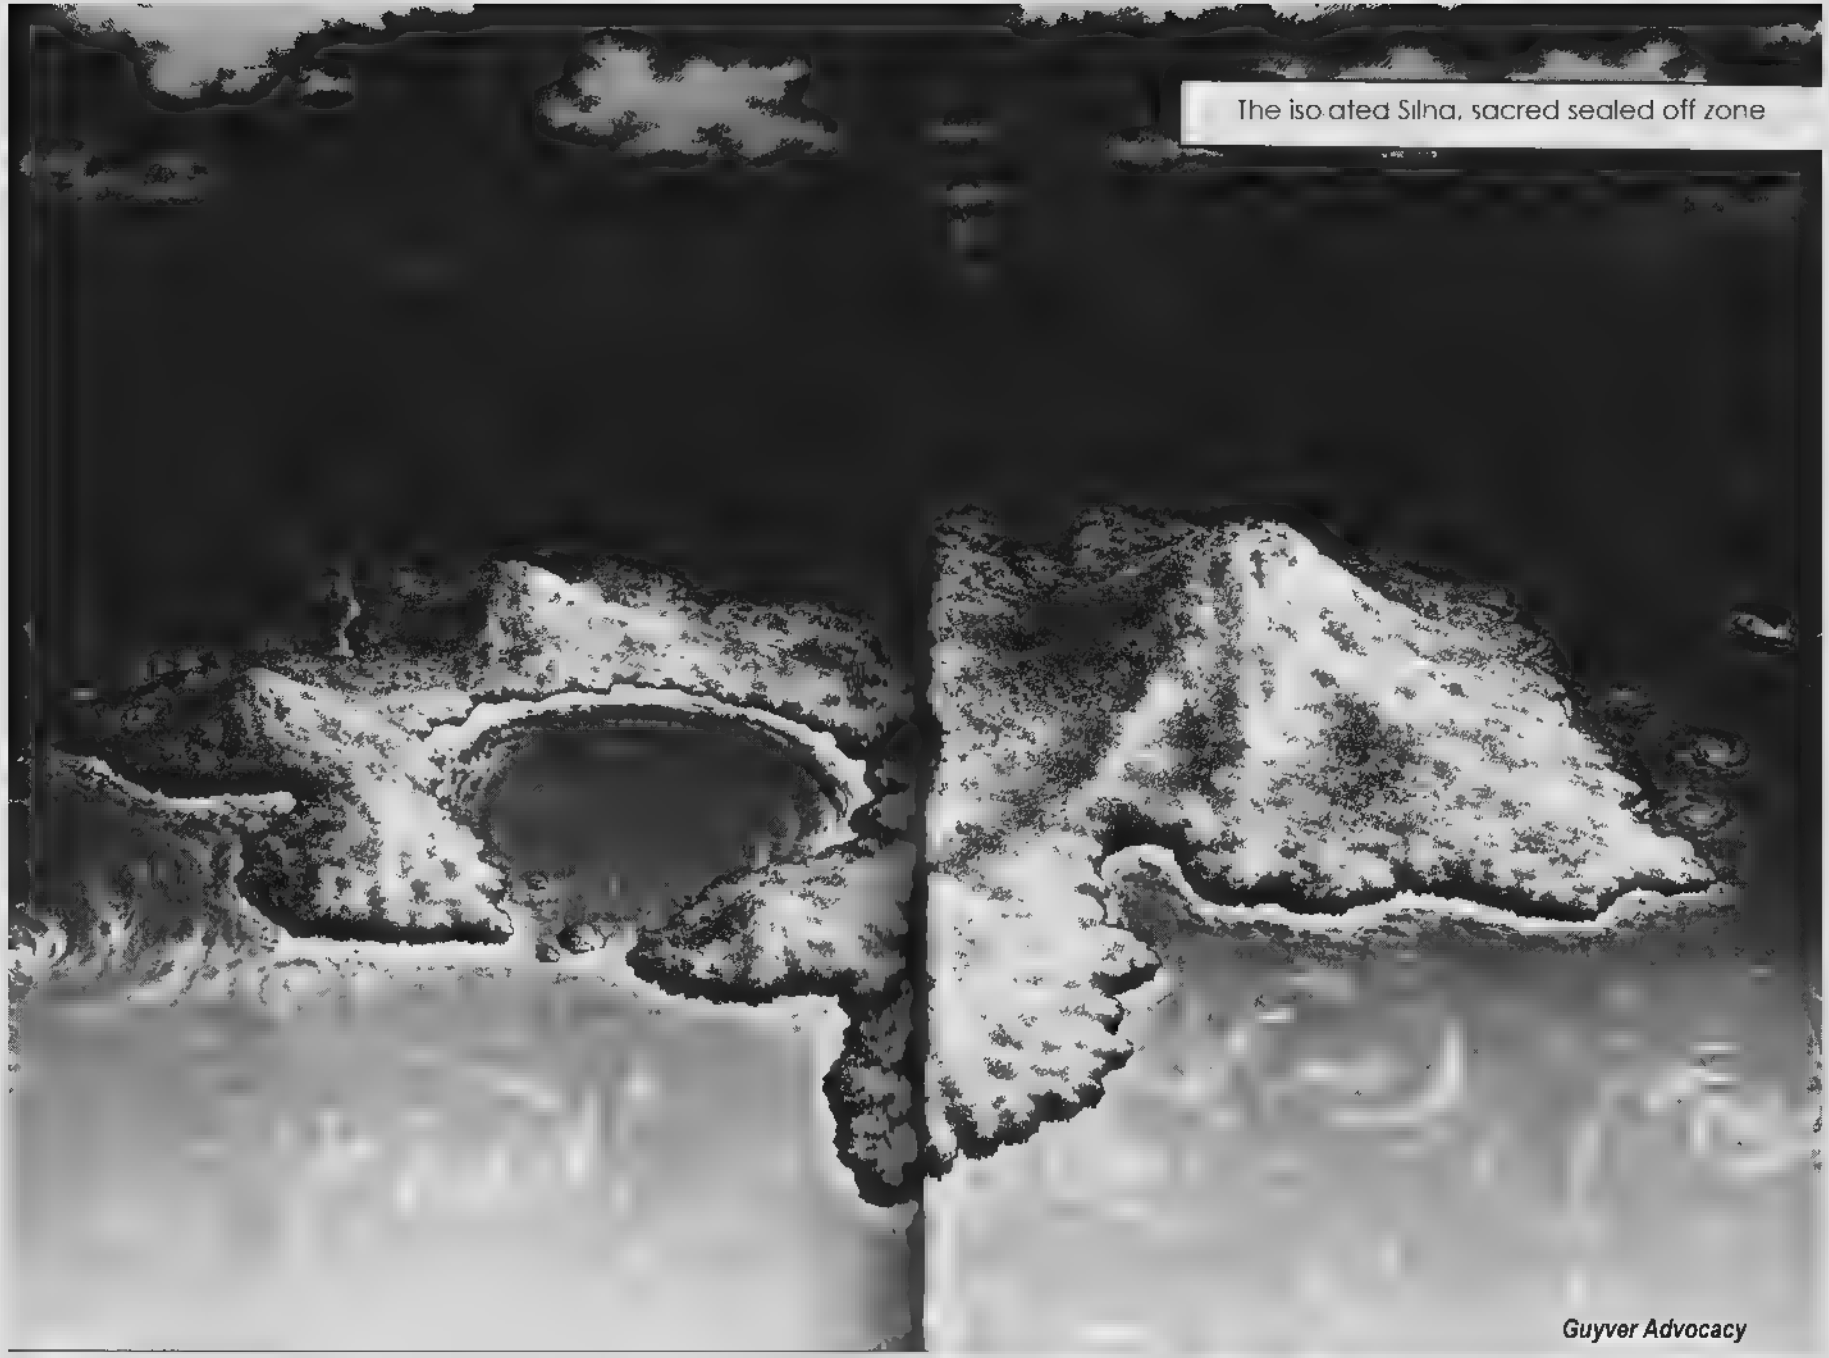
In fact, I have already heard that there is only one of our lords in a position to control the Ark.
This is the only plausible explanation

The Ark should stop in a zone where it is able to absorb sunlight, following the rotation of the planet..
And now it would have to have accumulated enough energy from the heat of the sun and stored it.

The Atlantic Ocean



Th
There
's
I AM ASKING YOU TO TELL ME WHAT IS DOWN THERE!
It is aiming directly... On the Atlantic ocean
. It 's an open zone of sea, there is not so much as an island!
There 's not nothing
WHAT ON EARTH IS HAPPENING ON THE ARK?!
WHY WOULD IT ATTACK THERE?!



The isolated Silna, sacred sealed off zone

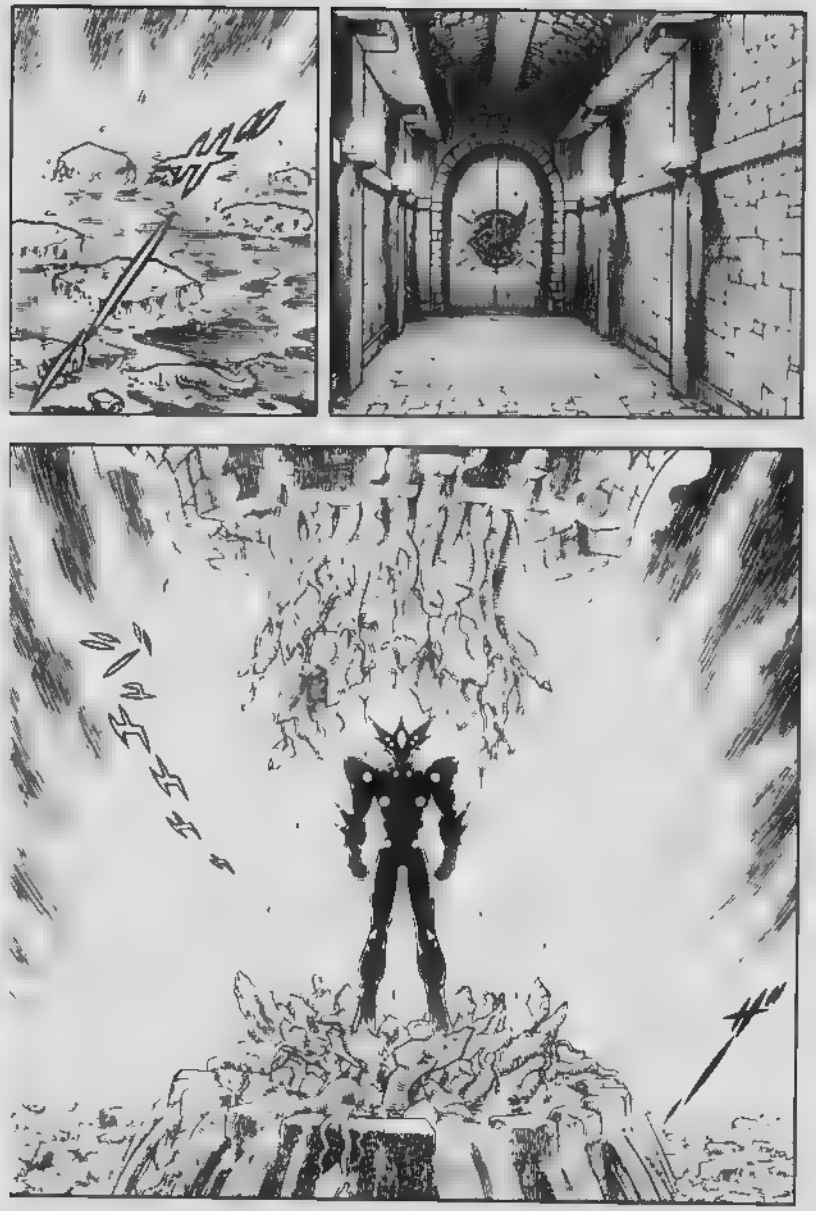
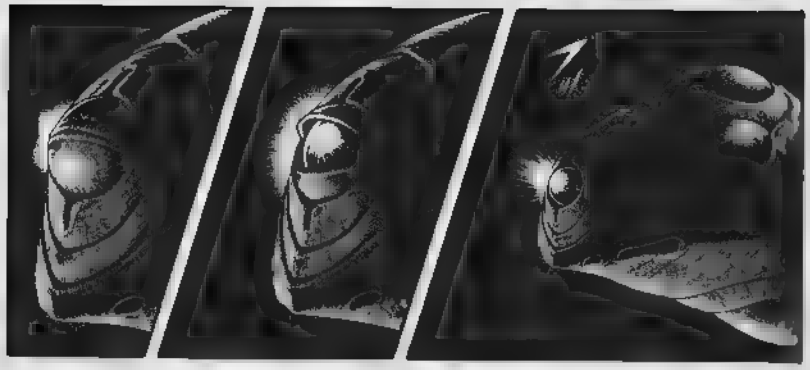
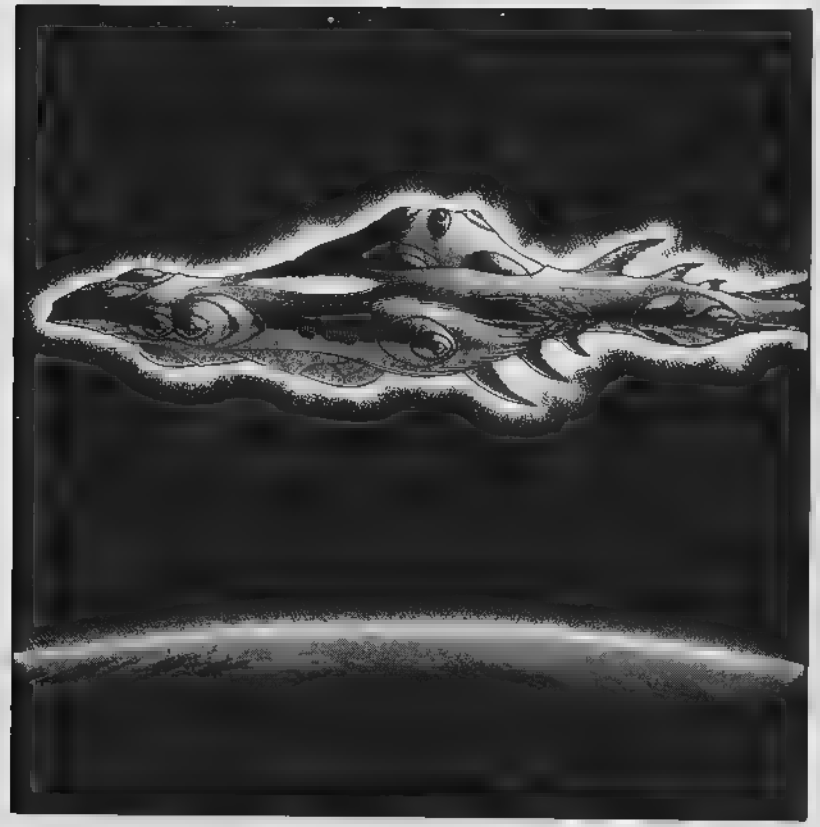
THE AWAKENING OF
IMAKARUM

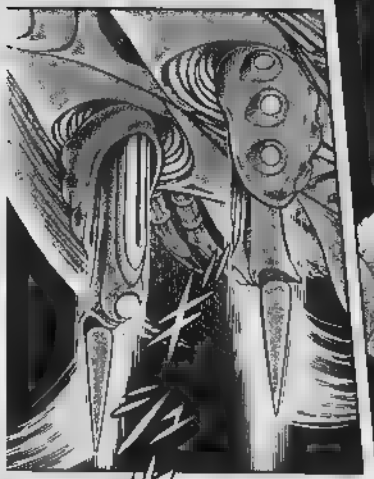


After the battle against the Guyver III version of the Gigantic
Oh, remember
But why would I find myself here?
Am in the sanctuary of the island?
Where am ?

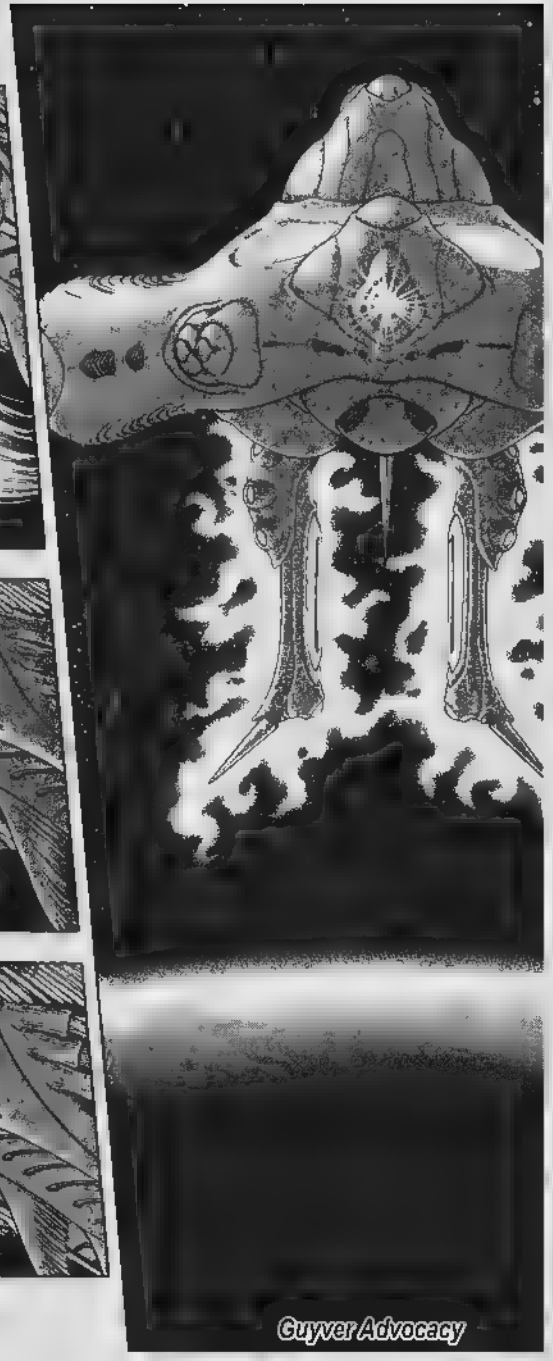
was defeated and my zoacrystal, the source of the life of the zoalord, was destroyed!
But.
Then why am I still alive? And what is this force that feels running through my body?
Hm? I feel the presence of a huge biological energy in the higher layers of the atmosphere
BUT IT IS NOT THE ARK?







ゴガガ



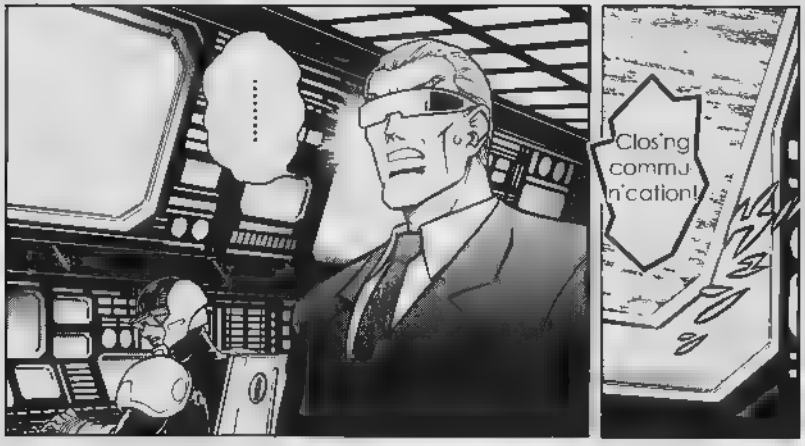
Guyver Advocacy

It has not moved an inch from where it fired the cannon ..
Tel me where the Ark is at this very moment
I do not want to hear ex cuses
.. It has stopped above the Atlantic ocean
Yes
THEN IT IS FOUND ABOVE THE ISLAND SILHA..
. Also, the ray that was fired from the main cannon seems to be some kind of revitalizing energy that has no destructive force...
. I think that the purpose of the blast was to give energy to someone...
The report indicates that the energy supply of the Ark is almost empty...

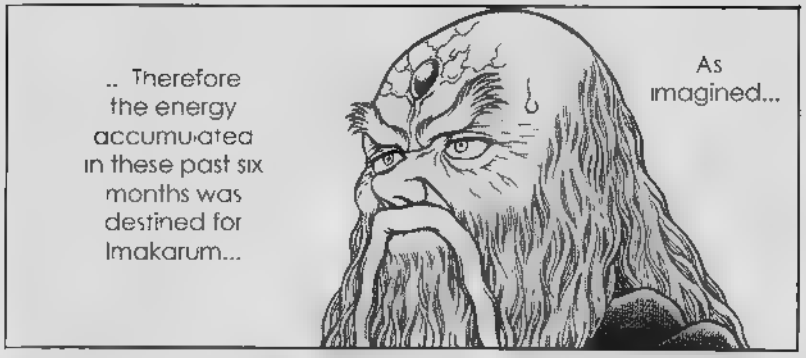
IDIOT!
But seeing as the council of twelve are the only beings able to control it...
I believed that you must already be aware of the situation
WHY DID YOU NOT REPORT THIS TO ME IMMEDIATELY?!
...
I am sorry!

. And do not speak to anyone of the con tent
Close all of the relevant file on this matter .

Yes Of course!
UNDER-STOOD?



.....
Clos'ng commu n'cation!



.. Therefore the energy accumulated in these past six months was destined for Imakarum...
As imagined...

t be longs to a zoalord?!
But th's energy source

.....

EH? BJT
That 's enough

A LARGE ENERGY SOURCE IS HEADING, AT HIGH SPEED, DIRECTLY TO-WARDS THE ARK!
WHAT?!

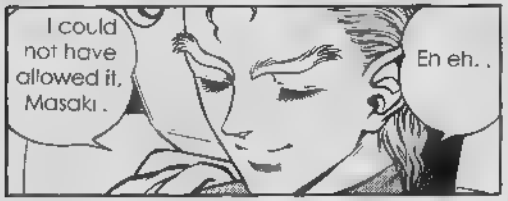
Chapter 103
THE SUPREME LORD
Guyver Advocacy

You would have to have been slipping in and out of consciousness from one moment to the next.
To do this you must have completely drained all your power...



I could not have allowed it, Masaki.
Eh eh..

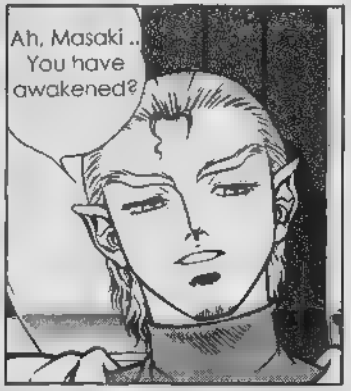
do not know what would happen if the other members of the council saw to you while entirely helpless..

What if they had been free to injure you
I would not have been able to go into my deep sleep...

Alkanphel

ALKAN-PHEL...

But why would you try to do the impossible?
You have used the Ark by yourself?



Ah, Masaki.. You have awakened?

The arge sh'p of biological war... The thing is actually a living biological body...
... CALLED THE ARK ..

So finally I can sleep in peace

. Take me to the sanctuary of Silna .
Please, Masaki

As you wish...

Akenpha has the intention of going with this ship of war..
.. To the Uranus, those who created him, TO FACE THEM IN THE HEAVENS
.. It is a system that will allow for long periods in space so that future generations will be able to continue the voyage..
.. It is like a closed in ecosystem with an army of zoanoids added to act as crew. .
This ship of war contains a natural environment similar to that of earth, it is a true living vessel...
Guyver Advocacy

In the distant past...

.. This planet was the location of the experiments of the Uranus.

...FOR THE STUDY AND CONSTRUCTION OF BIOLOGICAL WEAPONS...

Finally they created the being we call humankind.

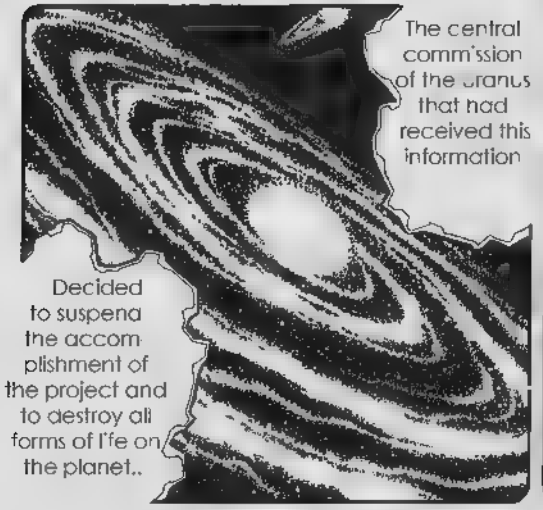
.. After some billion years of experimentation

.. From the base of these experiments they developed the biological weapons called zoanoids.

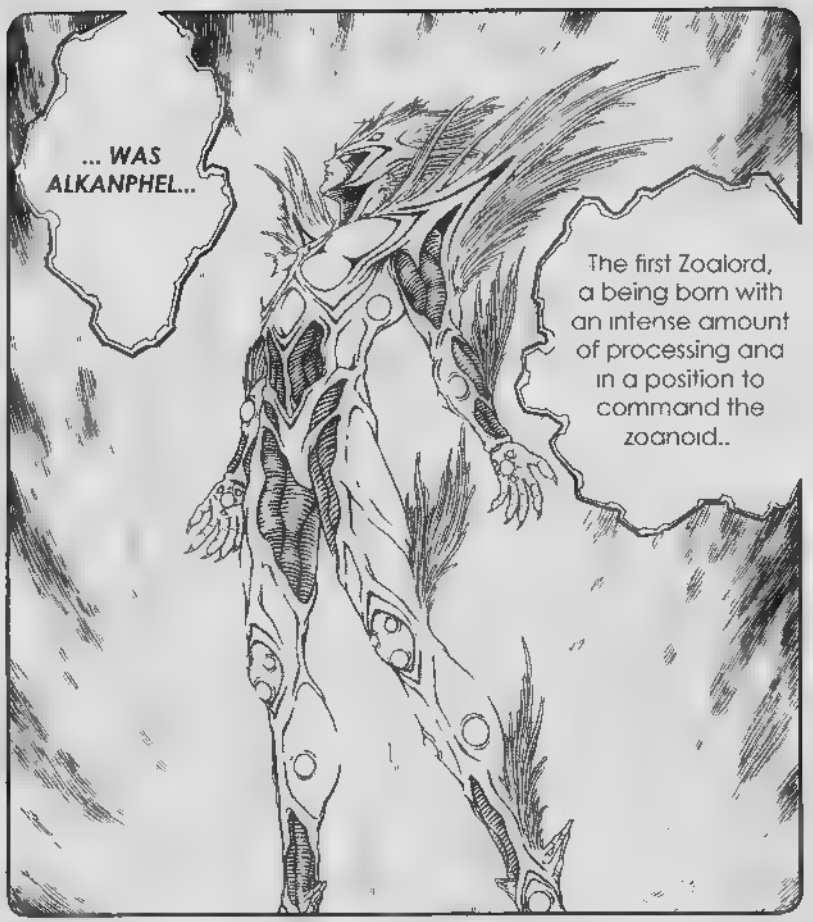
.. A human is transformed in to a Guyver, a living body that was immune to the Uranus control
Upon contact with the Unit G, the same armour the Uranus equipped themse ves with for daily activities

... THEY DISCOVERED A FACTOR THAT REJECTED THEIR MENTAL CONTROL ...
In the weapons created on this planet

The Uranus were terrified of the enormous combative ability that was far superior to that of the zoanoid, and .



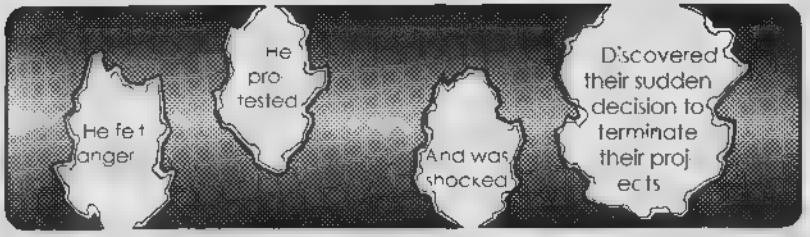
The central comm'ssion of the Uranus that had received this information
Decided to suspend the accom plishment of the project and to destroy all forms of l'fe on the planet..



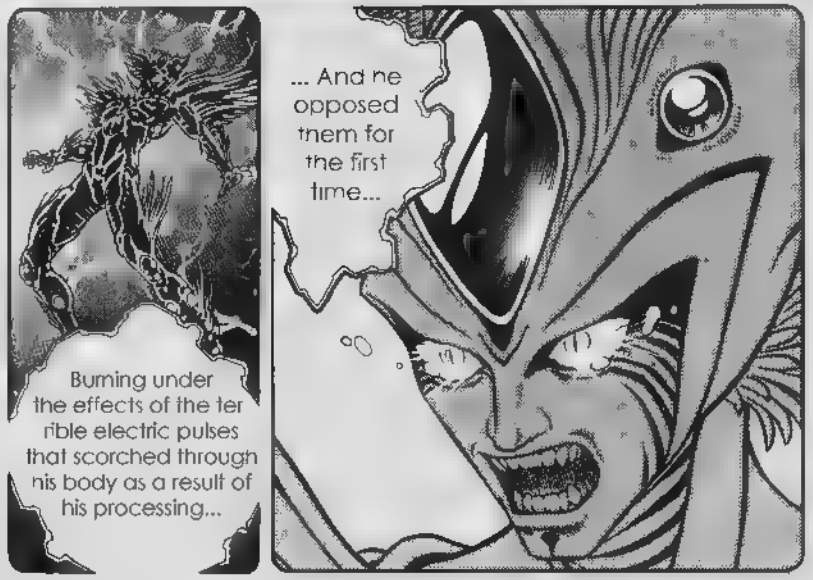
... WAS ALKANPHEL...
The first Zoalord, a being born with an intense amount of processing and in a position to command the zoanoid..

... IT WAS FOUND THAT HUMANKIND POSSESSED A SERIOUS DEFECT ...
But when the projects of the Uranus had come to a conclus'on.

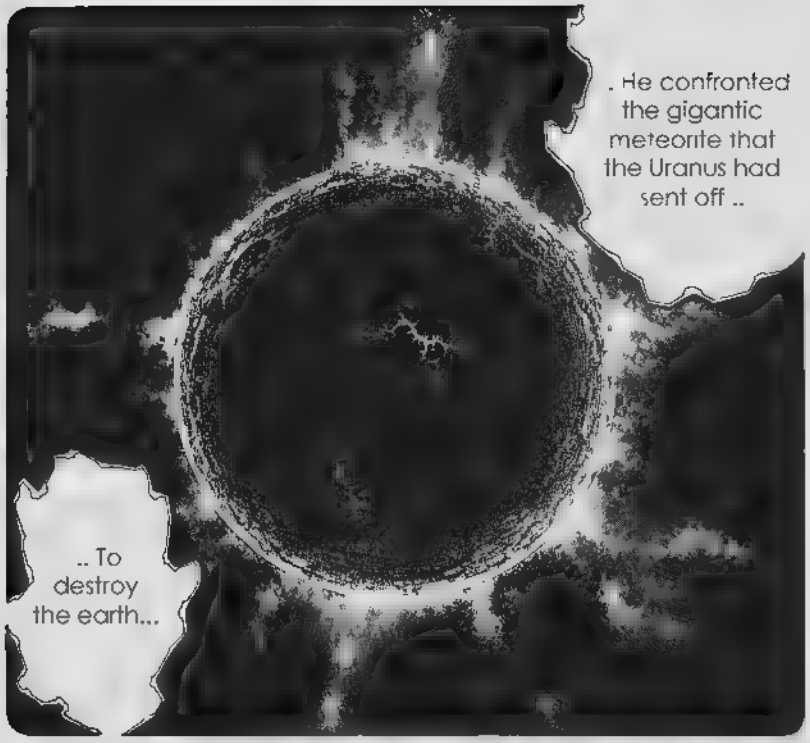
A kanphel, who adored h's creators the Uranus
. And was content in the knowledge that he was created to serve them ..



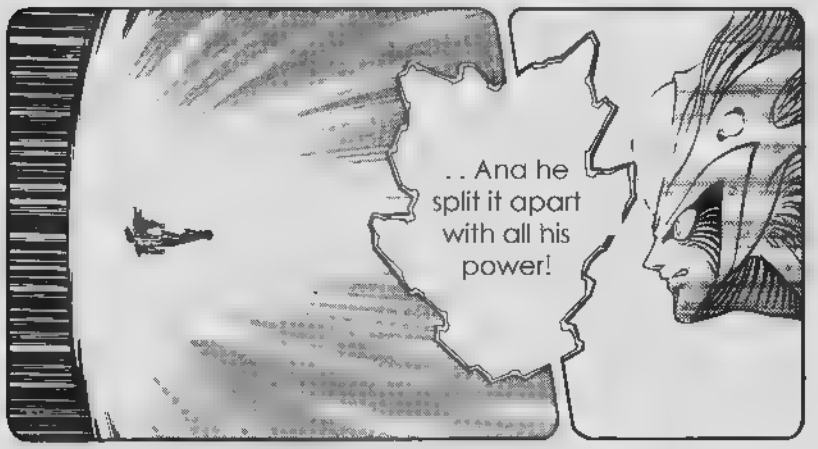
He fe t anger
He pro tested
And was shocked
D'scovered their sudden decision to terminate their proj ec ts



... And he opposed them for the first time...
Burning under the effects of the ter rible electric pulses that scorched through his body as a result of his processing...

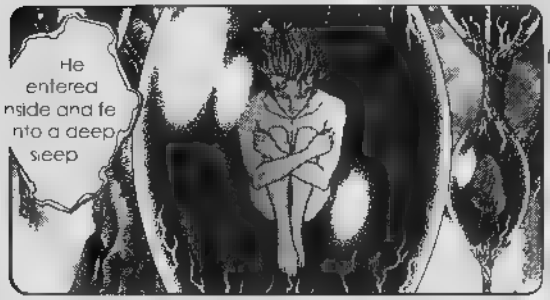


. He confronted the gigantic meteorite that the Uranus had sent off ..
.. To destroy the earth...



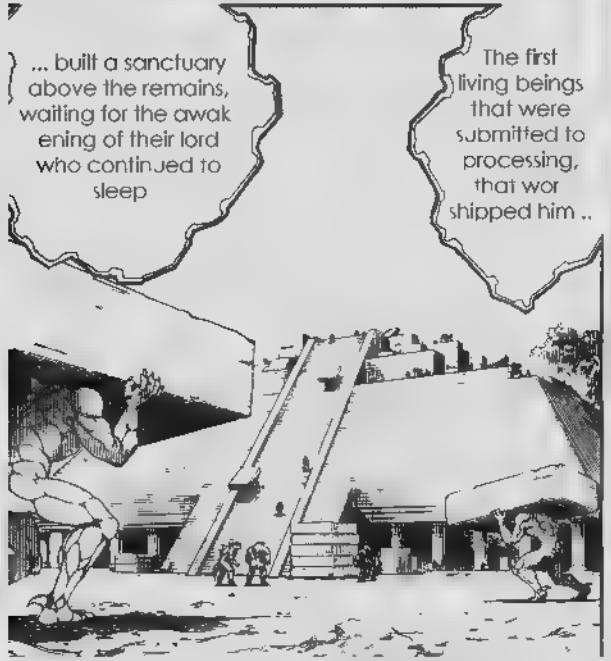
. . And he split it apart with all his power!

But... The injuries incurred from the attack of the Uranus were far more serious then he had thought. . And this caused a period of lethargy that still torments Alkanphel to this day
A kanphe was cosumed for the effort and h s ab'ities lowered cons derab e

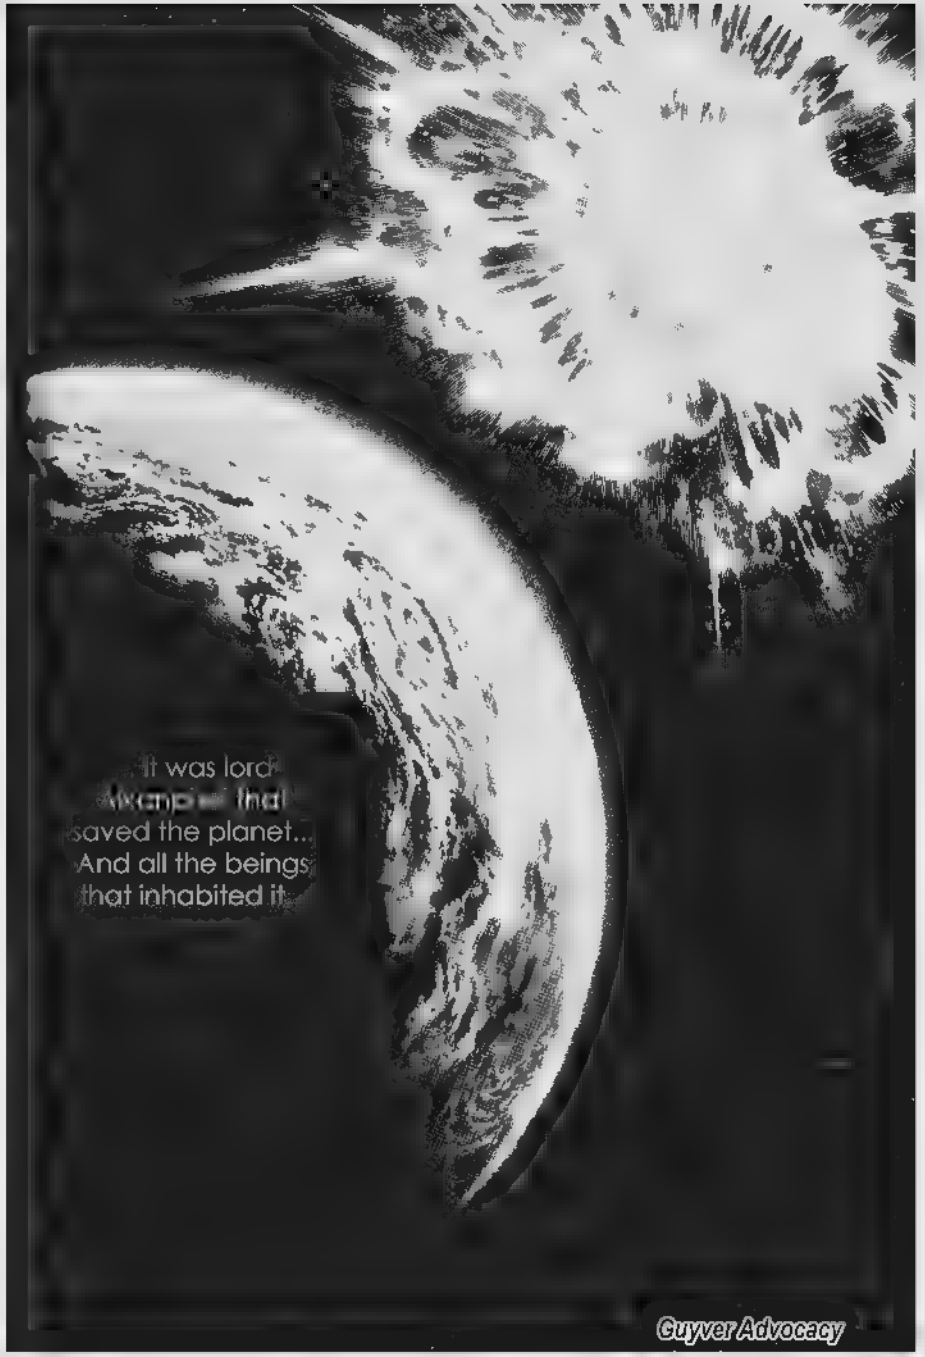


He entered nside and fe nto a deep sleep

But he found a life pod similar to what had been used for h s develop- ment n the remains of the spacesh ps left behind by the Uranus

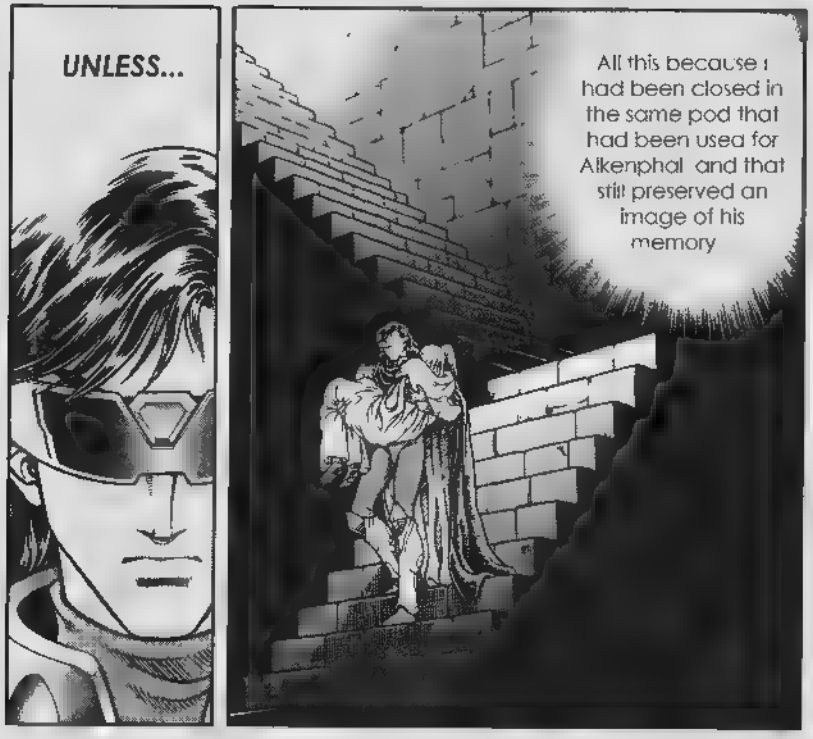


... built a sanctuary above the remains, waiting for the awak ening of their lord who continued to sleep
The first living beings that were submitted to processing, that wor shipped him ..



It was lord Alkanphel that saved the planet... And all the beings that inhabited it
Cuyver Advocacy

. From the memory of Alkan phel when I lay in a coma inside the life pod, here un derground...
These are events that my brain received directly...



UNLESS...
All this because I had been closed in the same pod that had been used for Alkenphal and that still preserved an image of his memory

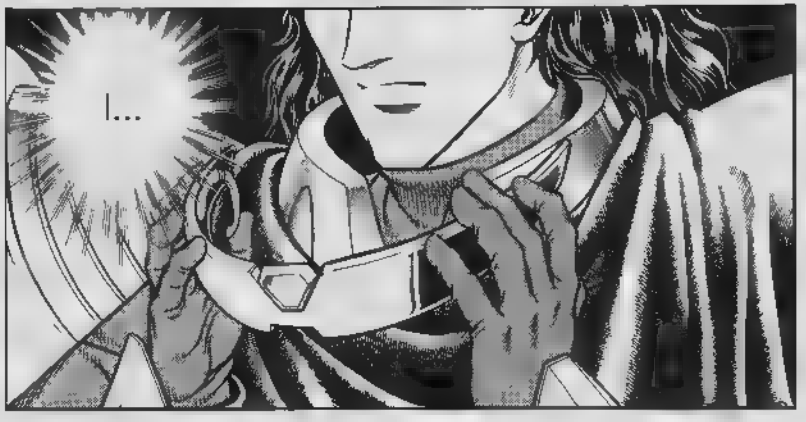
ON THE
SILHA
So this is the sanctuary of rest
Guyver Advocacy

... Truth that nobody knows, except for Alkanphel...

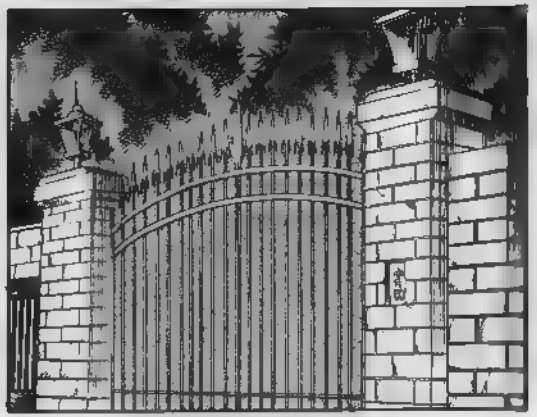
Yes, In any case now I know the truth...

I will entrust to you all that remains ..

# Chapter 104
# THE INTENTION



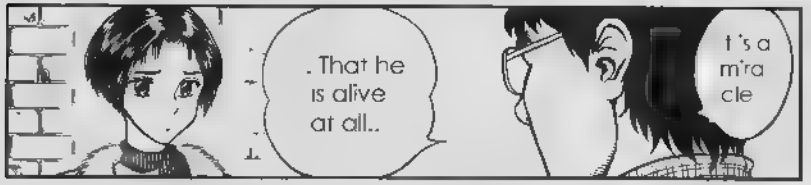
Odagiri



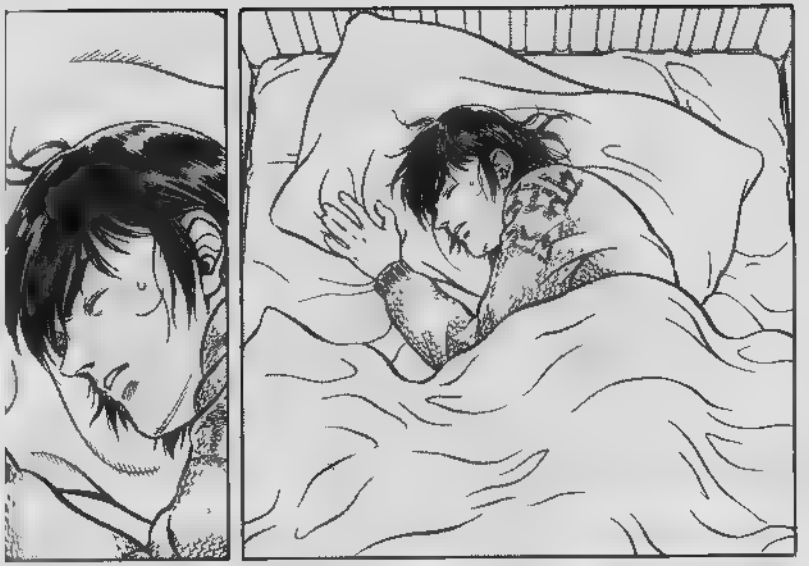
Tokyo, Setagaya District
Guyver Advocacy

Yes, it's natural..
When he arrived here he was completely exhausted..
He's still sleeping.
How is Sno?

And as if that wasn't bad enough three zoalords aswell
Yeah Having to deal with the fake G'gantic and Purgstal

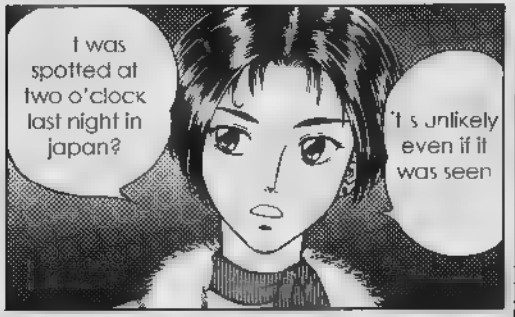


. That he is alive at all..
It's a miracle



Sno

In the moment of the attack the Dark Gigantic was seen around the institution .

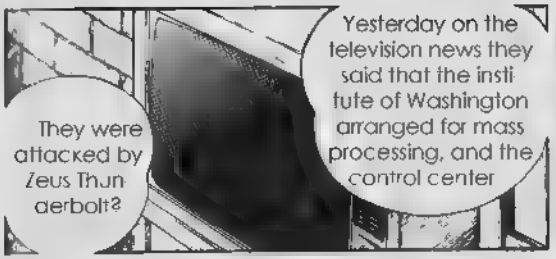


t was spotted at two o'clock last night in japan?
't s unlikely even if it was seen

Yes . This does not come as a surprise ..
Zeus Thunderbolt is the organization of Makishima and

But then

... How can two Gigantics appear simultaneously in two different places?
You see . It is not possible...
But no... That was when Sho was fighting. .

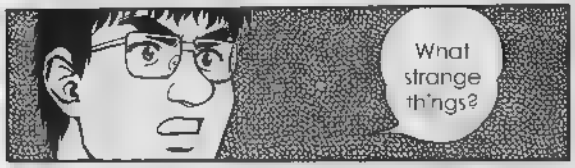


They were attacked by Zeus Thunderbolt?
Yesterday on the television news they said that the institute of Washington arranged for mass processing, and the control center

Eh, Tetsuro
There is something that worries me

And on the internet people are saying strange things

But there is something different

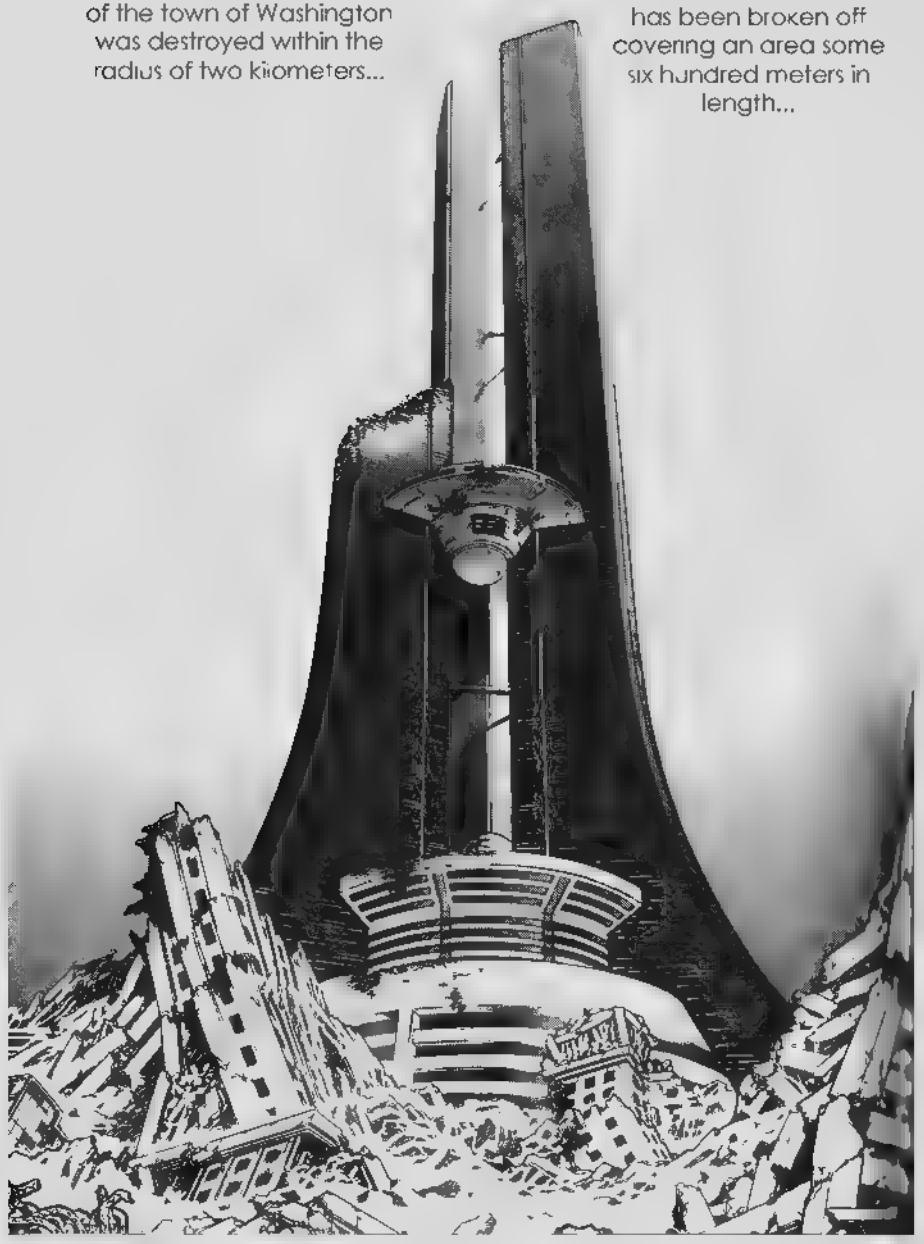


What strange things?

Whoever it was that attacked the institute they looked like similar creatures to zoanoids

Because of the fall of part of the building, some of the town of Washington was destroyed within the radius of two kilometers...

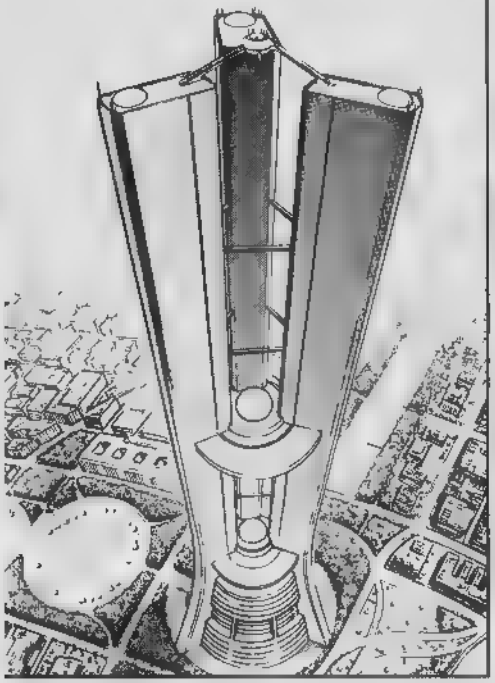
.. And I believe that one of the three towers has been broken off covering an area some six hundred meters in length...



nstead the damage of the P' lars of Heaven that is the control center of Cronos in the USA...

Remember .. In japan the news was not announced in detail, but...

The Pillars of Heaven is a building that is a large center of control over the world and its height is more then a kilometer... It is composed from three skyscraper style towers...



Were they very serious?

Yes...

But I do not know how much we can trust of th's news report. .

When he was still a student of medicine he was already one of the promising managers of Cronos

He is the adopted son of Genzo Makishima the former director of the Japanese branch of Cronos

That man

but rather to penetrate the organization and become Guyver by obtaining a bio armour unit

But his intention was not to take the inheritance of his stepfather's position

He continued to work from the shadows in the battles against Cronos together with Sho always hiding his true intent

Agito Makishima he has always seemed dangerous to me even in the beginning

It would not take long for Makishi ma
But... In during that time Sho was in Akanigaoka

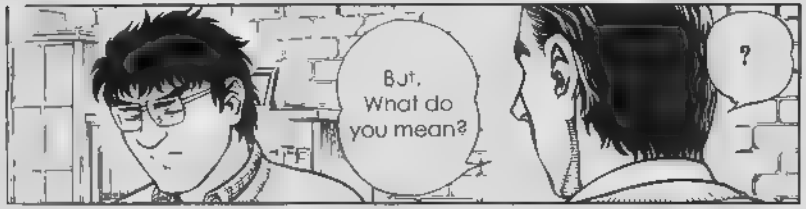
... Even when Sho is stil using it. .
... To trans- form himself into the Gi- gantic...

Then that is what hap- pened to Sho?
.....
WHAT?

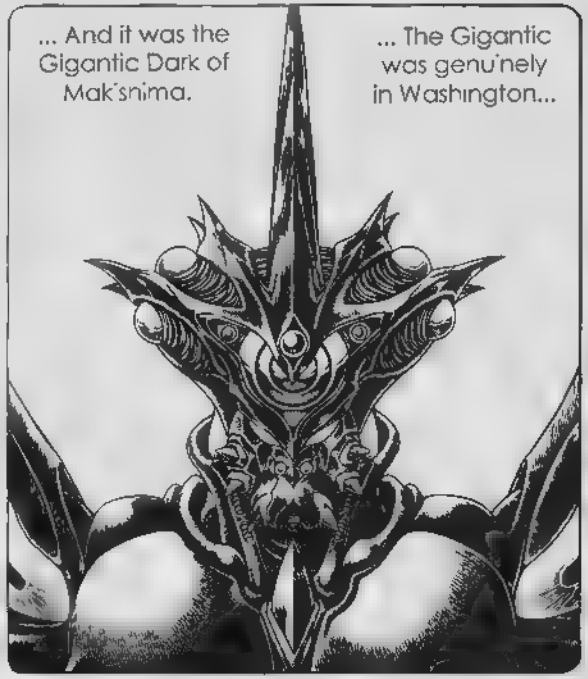
While he was facing the Zoalora.
I imagine that Mak'snima had ripped it from Sho by force...

Maksn 3os

.. In Makishi ma.
. . I wanted to believe until the end in the good
And then also...

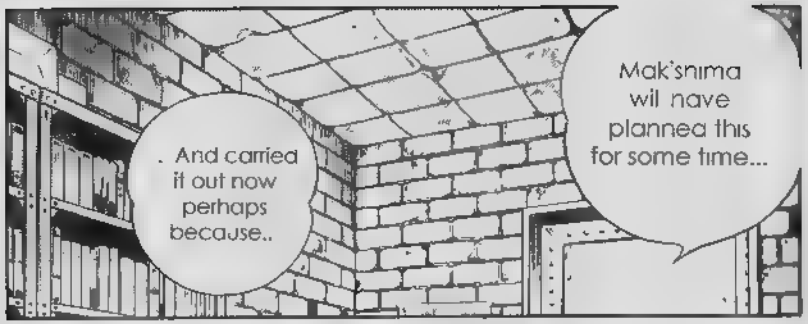


But, What do you mean?
?



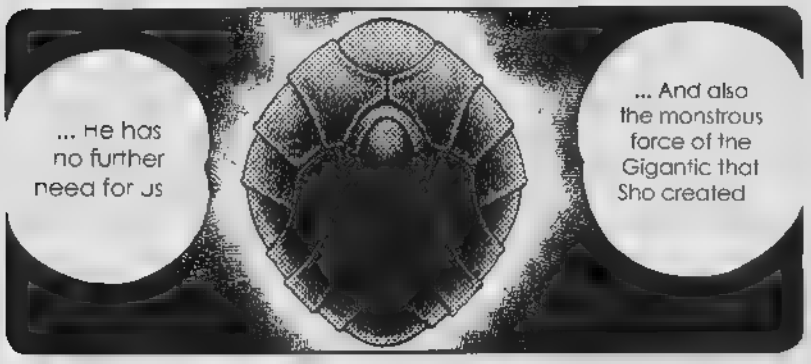
... And it was the Gigantic Dark of Mak'snima.
... The Gigantic was genu'nely in Washington...

believe that during the hour in question...



. And carried it out now perhaps because..
Mak'shima wil nave plannea this for some time...

Now that he nas obtained the full data disks of the research for Hayami and its connections .
Yes.
Useful-ness?
. We have now lost our usefJiness to him



... He has no further need for Js
... And also the monstrous force of the Gigantic that Sho created

... HE BETRAYED ALL OF US!
MAKISHIMA BETRAYED SHO...

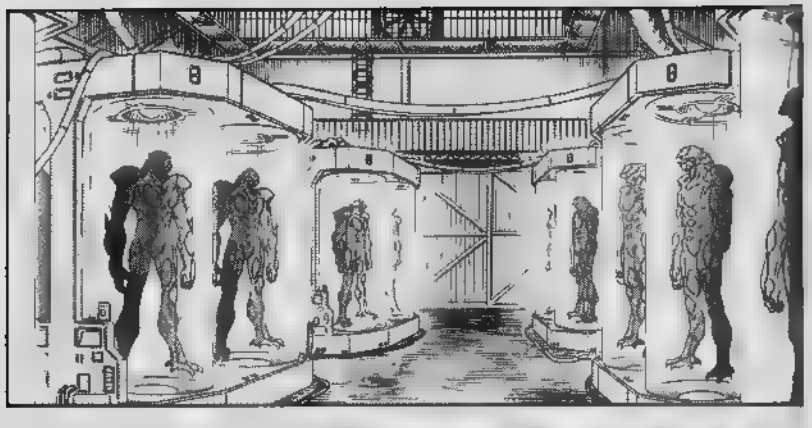
But it's intention was not to take the inheritance of his stepfather's position..
... He continued to work from the shadow of the battles against Cronos together with Sho always hiding his true intent. .
As to Makishima, he has always seemed dangerous to me even in the beginning...

Makishima betrayed us
.....
Who knows what he is experiencing .
Sho ...

... But...
... That Makishima's approach to Sho was to gain from him...
I myself am shrewd .
. . had hoped that it had given him a change of heart... Since then we fought together until now...
HOWEVER .
When we met Yohei and Shizu, they showed a genuine concern for his well being...
nothing has changed at all!
... Now its clear.

State of Colorado, United States of America



How are the conditions of the L'bertus?
Doctor Hekkar-ng ..

The base of the Organisation of resistance, Zues Thunderbolt

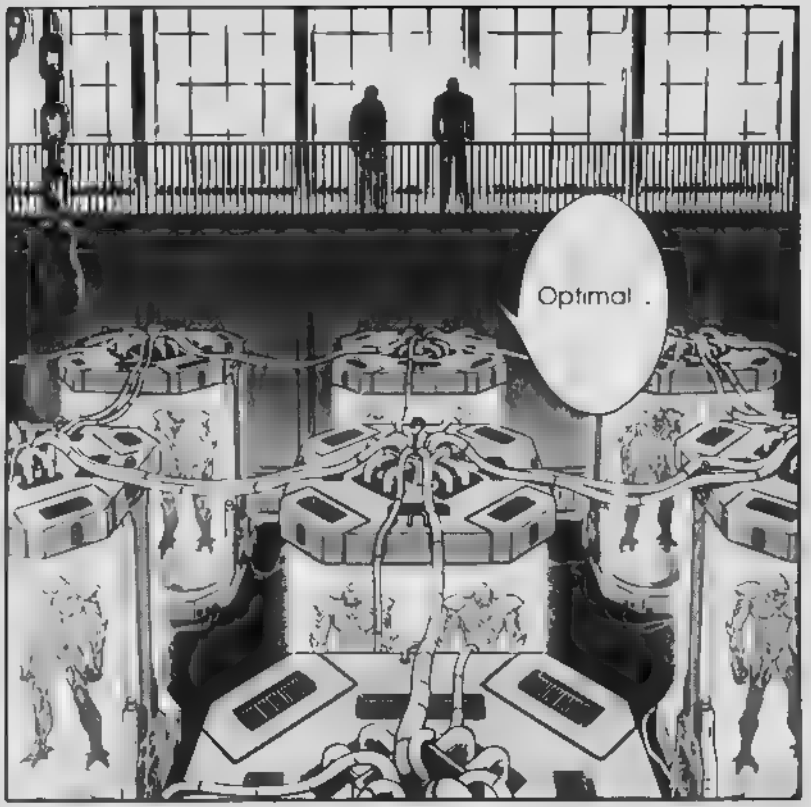
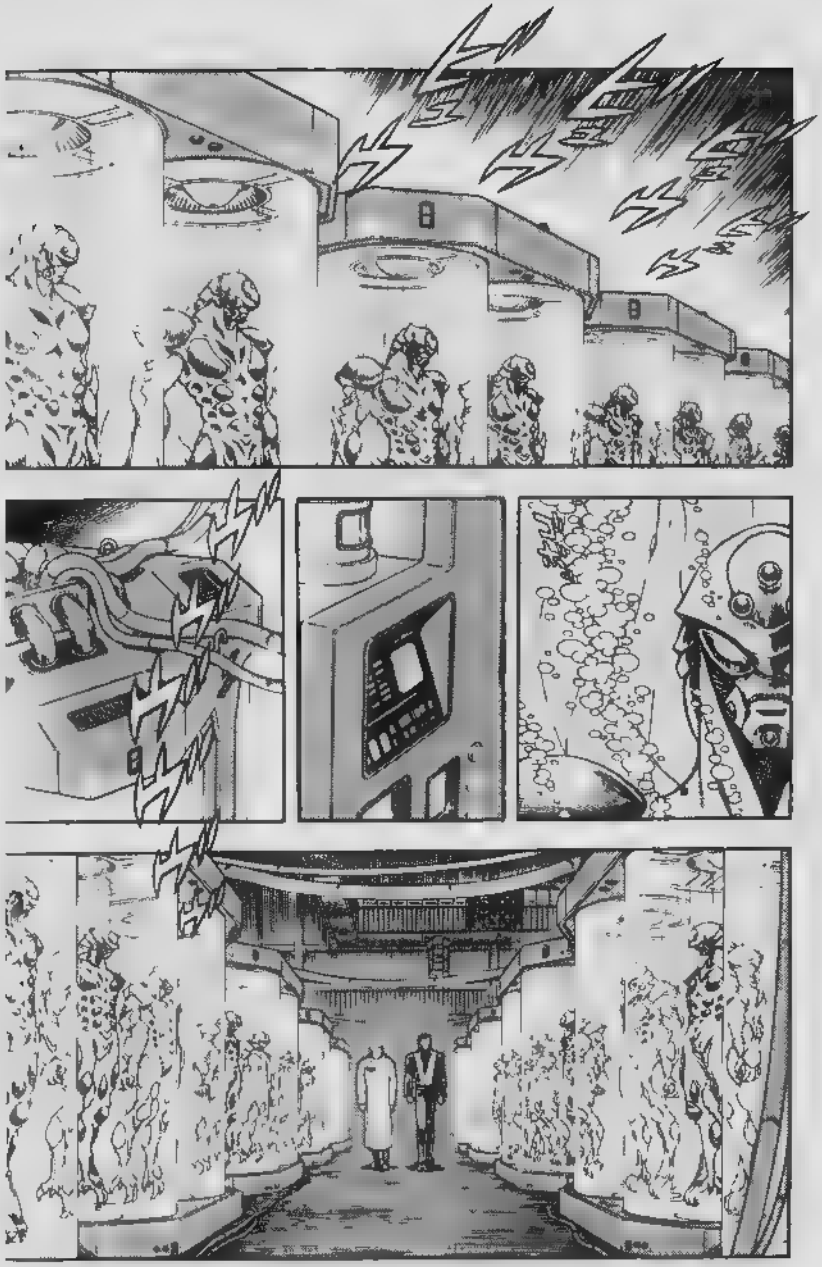
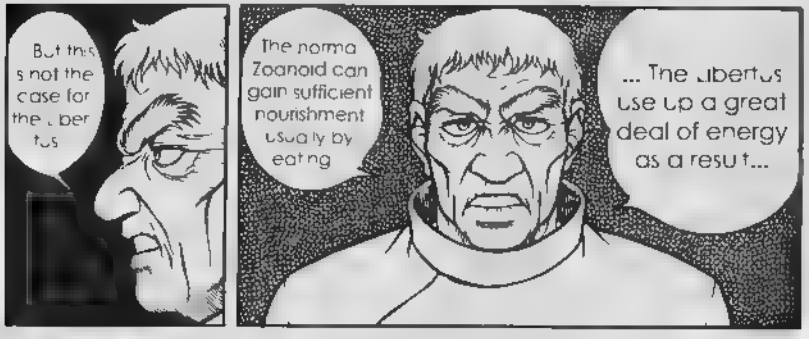
# TWISTED BY FAITH



Guyver Advocacy



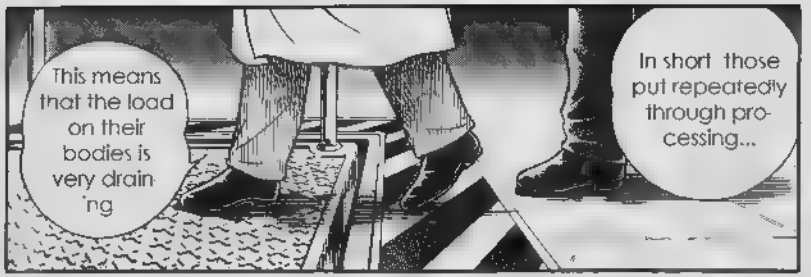
Although there is clearly an improvement in there performance with the use of our higher technology,
that is superior to that used for a Hyper Zoanoid. ..



But this is not the case for the Libertus
The normal Zoanoid can gain sufficient nourishment usually by eating
... The Libertus use up a great deal of energy as a result...

They will need to be fed via these processing tanks.
Therefore Every time they enter a fight
effectively acting as a recharge-able battery...

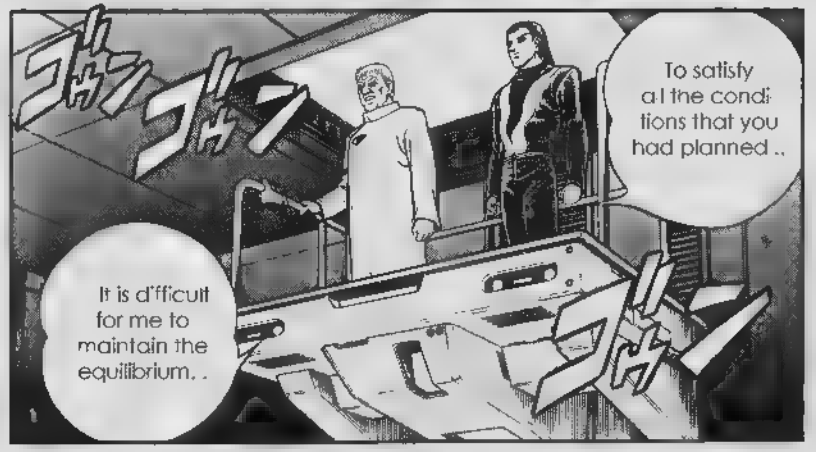
They will not manage to live more then two years. .
f you exploit them too much .



This means that the load on their bodies is very drain ing
In short those put repeatedly through pro- cessing...

ゴゥン
Already they cannot survive for long but their life shortens even fur ther if this process is carried out continJally

And then the same is true ..



ゴゥンゴゥン
To satisfy a l the condi tions that you had planned ..
It is d'fficult for me to maintain the equilibrium. .

have uncovered that that man, Genzo Makis! that changed my life deceiving my father and my mother was in reality a puppet of the organization, and is dead falling in the trap that I systemized after having obtained the power of the Guyver.

And then... Sho Fukamachi, the Guyver responsible for the birth of the Gigantic that represents a limitless force, could not do anything other then to give me the Gigantic after having yielded to my willpower. It is that which defeated him.

An incompete authority and the use of the force without a strong will .

That strange character that we saw escaping the other day in Akarigaoka

WHAT?!

Thanks to the council of twelve that now find themselves in japan ..

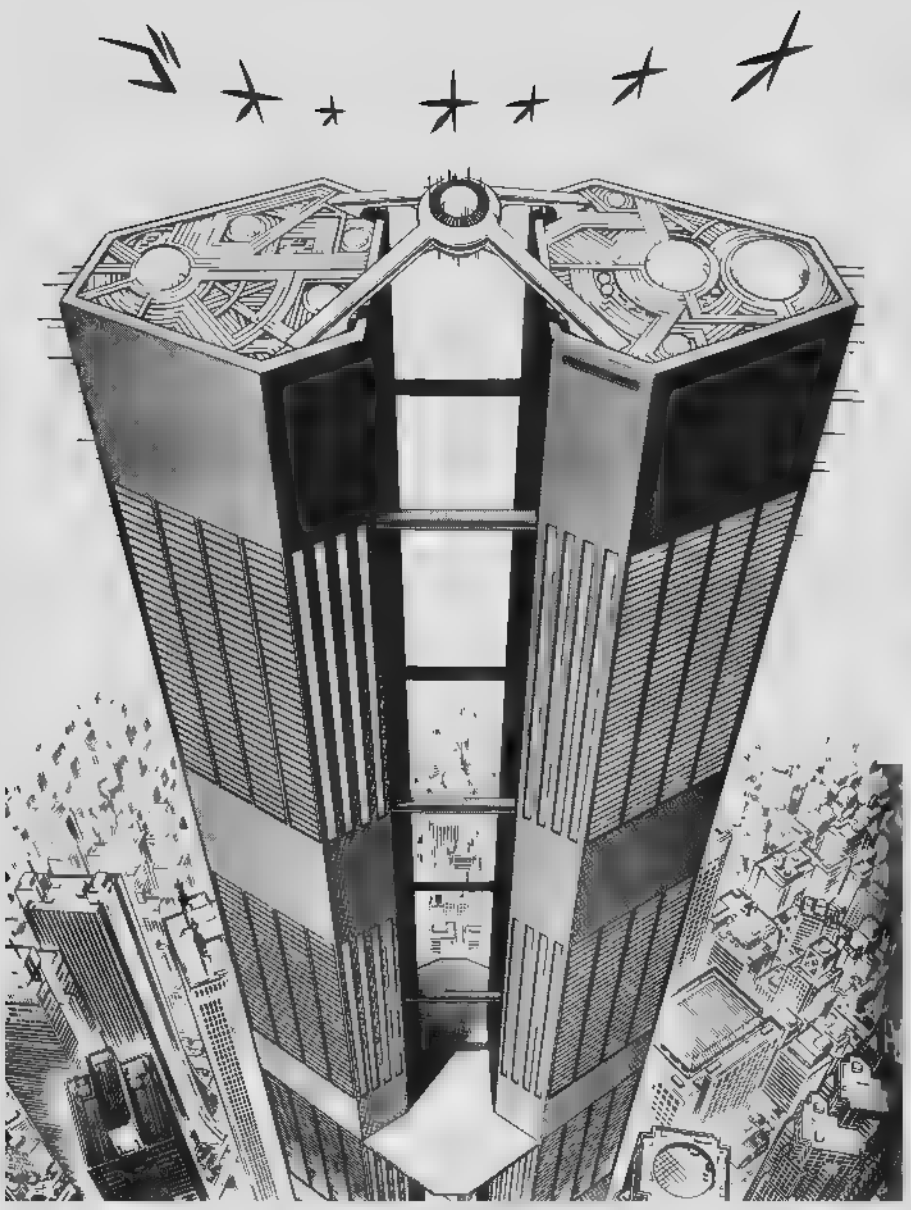
# Chapter 106
# THE ATTACK OF GUYVER ONE

That means that Aptom was also there in Akarigaoka together with Sho?
They said that he was part of the group of the Guyver?
But how could this have happened to Aptom?
But?
It 's ike y so...
Aptom...
And then he knew that the power of the Gigantic coula be passed to Makishima .
Per haps that is why..
... He has always shown concern for Sho even if he himself was acting as an enemy. .

It is not easy to main tain its life...
Even though it is a Guyver, when it is found in this state .
. And every day its reactions decrease .
. The biochemi cal department of the control center wil wait until it has lost all life signs...
And they will begin the analys's autopsy then



I do not know But surely he does not know that the life of Aptom will last only a few days ..
Who knows

Then he went to Akarigaoka to help Sho?
